

## Energy Transfer Announces the Bakken Pipeline is in Service Transporting Domestic Crude Oil from the Bakken/Three Forks Production Areas

June 1, 2017

*Transporting Crude From North Dakota to Multiple Major U.S. Markets in a More Direct, Cost-effective, Safer and More Environmentally Responsible Manner Than Either Rail or Truck*

DALLAS--(BUSINESS WIRE)--Jun. 1, 2017-- Energy Transfer Partners, L.P. (NYSE: ETP) today announced that the Dakota Access Pipeline ("Dakota Access") and the Energy Transfer Crude Oil Pipeline ("ETCO"), collectively the "Bakken Pipeline," are in commercial service under the Committed Transportation Service Agreements through their respective pipeline systems. The Bakken Pipeline, owned by Dakota Access, LLC and Energy Transfer Crude Oil Company LLC, respectively, is a 1,872-mile, mostly 30-inch pipeline system that transports domestically produced crude oil from the Bakken/Three Forks production areas in North Dakota to a storage and terminalling hub outside Patoka, Illinois, and/or down to additional terminals in Nederland, Texas. The Bakken Pipeline is a joint venture between Energy Transfer Partners with a 38.25 percent interest, MarEn Bakken Company LLC ("MarEn") with a 36.75 percent interest, and Phillips 66 with a 25 percent interest. MarEn is an entity owned by MPLX LP and Enbridge Energy Partners L.P.

Dakota Access and ETCO, developed at a combined cost of approximately \$4.78 billion have commitments, including shipper flexibility and walk-up, for approximately 520,000 barrels per day. This is up from 470,000 barrels per day due to the successful Supplemental Open Season held earlier this year that committed an additional 50,000 barrels per day. The combined system is expandable to a capacity of approximately 570,000 barrels per day. The pipeline will transport light, sweet crude oil from North Dakota to major refining markets in a more direct, cost-effective, safer and more environmentally responsible manner than other modes of transportation, including rail or truck.

The \$3.8 billion Dakota Access consists of approximately 1,172 miles of 30-inch diameter pipeline traversing North Dakota, South Dakota, Iowa and Illinois. Crude oil transported on Dakota Access originates at six terminal locations in the North Dakota counties of Mountrail, Williams and McKenzie. The pipeline delivers the crude oil to a hub outside of Patoka, Illinois where it can be delivered to the ETCO pipeline for delivery to the Gulf Coast, or can be transported via other pipelines to refining markets throughout the Midwest. ETCO consists of more than 700 miles of mostly 30-inch converted natural gas pipeline from Patoka, Illinois to Nederland, Texas, where the crude oil can be refined or further transported to additional refining markets.

**Energy Transfer Partners, L.P. (NYSE: ETP)** is a master limited partnership that owns and operates one of the largest and most diversified portfolios of energy assets in the United States. Strategically positioned in all of the major U.S. production basins, ETP owns and operates a geographically diverse portfolio of complementary natural gas midstream, intrastate and interstate transportation and storage assets; crude oil, natural gas liquids (NGL) and refined product transportation and terminalling assets; NGL fractionation; and various acquisition and marketing assets. ETP's general partner is owned by Energy Transfer Equity, L.P. (NYSE: ETE). For more information, visit the Energy Transfer Partners, L.P. website at [www.energytransfer.com](http://www.energytransfer.com).

**Energy Transfer Equity, L.P. (NYSE: ETE)** is a master limited partnership that owns the general partner and 100% of the incentive distribution rights (IDRs) of Energy Transfer Partners, L.P. (NYSE: ETP) and Sunoco LP (NYSE: SUN). ETE also owns Lake Charles LNG Company. On a consolidated basis, ETE's family of companies owns and operates a diverse portfolio of natural gas, natural gas liquids, crude oil and refined products assets, as well as retail and wholesale motor fuel operations and LNG terminalling. For more information, visit the Energy Transfer Equity, L.P. website at [www.energytransfer.com](http://www.energytransfer.com).

**Enbridge Energy Partners, L.P. (NYSE: EEP)** owns and operates a diversified portfolio of crude oil transportation systems in the United States. Its principal crude oil system is the largest pipeline transporter of growing oil production from western Canada and the North Dakota Bakken formation. The system's deliveries to refining centers and connected carriers in the United States account for approximately 23 percent of total U.S. oil imports.

**MPLX LP (NYSE: MPLX)** is a diversified, growth-oriented master limited partnership formed in 2012 by Marathon Petroleum Corporation to own, operate, develop and acquire midstream energy infrastructure assets. We are engaged in the gathering, processing and transportation of natural gas; the gathering, transportation, fractionation, storage and marketing of NGLs; and the transportation, storage and distribution of crude oil and refined petroleum products. Headquartered in Findlay, Ohio, MPLX's assets consist of a network of crude oil and products pipeline assets located in the Midwest and Gulf Coast regions of the United States; 62 light-product terminals with approximately 24 million barrels of storage capacity; an inland marine business; storage caverns with approximately 2.8 million barrels of storage capacity; crude oil and product storage facilities (tank farms) with approximately 5 million barrels of available storage capacity; a barge dock facility with approximately 78,000 barrels per day of crude oil and product throughput capacity; and gathering and processing assets that include more than 5,600 miles of gas gathering and NGL pipelines, 55 gas processing plants, 14 NGL fractionation facilities and two condensate stabilization facilities.

**Phillips 66 (NYSE: PSX)** is a diversified energy manufacturing and logistics company. With a portfolio of Midstream, Chemicals, Refining, and Marketing and Specialties businesses, the company processes, transports, stores and markets fuels and products globally. Phillips 66 Partners, the company's master limited partnership, is an integral asset in the portfolio. Headquartered in Houston, the company has 14,600 employees committed to safety and operating excellence. Phillips 66 had \$51 billion of assets as of March 31, 2017.
