## Forward-Looking Statements

Certain matters discussed in this report, excluding historical information, as well as some statements by Panhandle Eastern Pipe Line Company, LP and its subsidiaries (“Panhandle” or the “Company”) in periodic press releases and some oral statements of the Company’s officials during presentations about the Company, include forward-looking statements. These forward-looking statements are identified as any statement that does not relate strictly to historical or current facts. Statements using words such as “anticipate,” “believe,” “intend,” “project,” “plan,” “expect,” “continue,” “estimate,” “goal,” “forecast,” “may,” “will” or similar expressions help identify forward-looking statements. Although the Company believes such forward-looking statements are based on reasonable assumptions and current expectations and projections about future events, no assurance can be given that such assumptions, expectations, or projections will prove to be correct. Forward-looking statements are subject to a variety of risks, uncertainties and assumptions. If one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, the Company’s actual results may vary materially from those anticipated, projected, forecasted, estimated or expressed in forward-looking statements since many of the factors that determine these results are subject to uncertainties and risks that are difficult to predict and beyond management’s control. For additional discussion of risks, uncertainties and assumptions, see “Part I — Item 1A. Risk Factors” in the Company’s Report on Form 10-K for the year ended December 31, 2013 filed with the Securities and Exchange Commission on February 27, 2014.

## Definitions

The following is a list of certain acronyms and terms generally used in the energy industry and throughout this document:

/d	per day
Bcf	Billion cubic feet
Btu	British thermal units
EPA	United States Environmental Protection Agency
ETE	Energy Transfer Equity, L.P.
ETP	Energy Transfer Partners, L.P., a subsidiary of ETE
Exchange Act	Securities Exchange Act of 1934
FERC	Federal Energy Regulatory Commission
GAAP	Accounting principles generally accepted in the United States of America
LIBOR	London Interbank Offer Rate
LNG	Liquefied natural gas
LNG Holdings	Trunkline LNG Holdings, LLC
MGE	Missouri Gas Energy
NEG	New England Gas Company
NGL	Natural gas liquids
OPEB plans	Other postretirement employee benefit plans
PCBs	Polychlorinated biphenyls
PEPL	Panhandle Eastern Pipe Line Company, LP
PEPL Holdings	PEPL Holdings, LLC
ppb	parts per billion
Regency	Regency Energy Partners LP, a subsidiary of ETE
Sea Robin	Sea Robin Pipeline Company, LLC
SEC	United States Securities and Exchange Commission

**PANHANDLE EASTERN PIPE LINE COMPANY, LP**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

(Tabular dollar amounts are in millions)  
(unaudited)

**1. OPERATIONS AND ORGANIZATION:**

**Business Operations**

Panhandle Eastern Pipe Line Company, LP and its subsidiaries (collectively, “we,” “us,” the “Company” or “Panhandle”) are primarily engaged in the interstate transportation and storage of natural gas and are subject to the rules and regulations of the FERC. The Company’s entities include the following:

- PEPL, an indirect wholly-owned subsidiary of ETP;
- Trunkline, a direct wholly-owned subsidiary of PEPL;
- Sea Robin, an indirect wholly-owned subsidiary of PEPL; and
- Southwest Gas, a direct wholly-owned subsidiary of PEPL.

The Company’s operations currently consist of interstate pipelines that transport natural gas from the Gulf of Mexico, South Texas and the panhandle regions of Texas and Oklahoma to major U.S. markets in the Midwest and Great Lakes region, as well as owning underground storage capacity.

Southern Union Panhandle LLC, an indirect wholly-owned subsidiary of ETP, serves as the general partner of PEPL and owns a 1% general partnership interest in PEPL. ETP also indirectly owns a 99% limited partnership interest in PEPL.

See Note 2 for information related to the Panhandle Merger. We have accounted for this transaction as a reorganization of entities under common control; therefore, the consolidated financial statements of the Company were retrospectively adjusted to consolidate Southern Union for all periods. As a result of this retrospective consolidation, the Company’s consolidated results of operations for the three months ended March 31, 2013 include Southern Union’s former natural gas gathering and processing operations, which were contributed to an affiliate in 2013 as discussed in Note 2, and Southern Union’s former local distribution operations, which were sold in 2013 and were presented as discontinued operations as discussed in Note 2.

**Preparation of Interim Financial Statements**

The accompanying condensed consolidated balance sheet as of December 31, 2013, has been prepared on the same basis as the audited financial statements included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2013. The accompanying unaudited interim condensed consolidated financial statements and notes thereto of the Company as of March 31, 2014 and for the three months ended March 31, 2014 and 2013 have been prepared in accordance with GAAP for interim condensed consolidated financial information and pursuant to the rules and regulations of the SEC. Accordingly, they do not include all of the information and footnotes required by GAAP for complete consolidated financial statements. However, management believes that the disclosures made are adequate to make the information not misleading. The results of operations for interim periods are not necessarily indicative of the results to be expected for a full year due to the seasonal nature of the Company’s operations.

The accompanying unaudited interim condensed consolidated financial statements reflect adjustments that are, in the opinion of management, necessary for a fair statement of results for the interim period. The unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto presented in the Company’s Annual Report on Form 10-K for the year ended December 31, 2013, as filed with the SEC on February 27, 2014.

**New Accounting Pronouncements**

In April 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update No. 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity* (“ASU 2014-08”), which changed the requirements for reporting discontinued operations. Under ASU 2014-08, a disposal of a component of an entity or a group of components of an entity is required to be reported in discontinued operations if the disposal represents a strategic shift that has or will have a major effect on an entity’s operations and financial results. ASU 2014-08 is effective for all disposals or classifications as

held for sale of components of an entity that occur within fiscal years beginning after December 15, 2014, and early adoption is permitted. We expect to adopt this standard for the year ending December 31, 2015. ASU 2014-08 could have an impact on whether transactions will be reported in discontinued operations in the future, as well as the disclosures required when a component of an entity is disposed.

## 2. **MERGERS, DECONSOLIDATIONS AND RELATED TRANSACTIONS:**

### ***2014 Transactions***

#### **Panhandle Merger**

On January 10, 2014, the Company consummated a merger with Southern Union, the indirect parent of the Company, and PEPL Holdings, the sole limited partner of the Company, pursuant to which each of Southern Union and PEPL Holdings, a wholly-owned subsidiary of Southern Union, were merged with and into the Company (the “Panhandle Merger”), with the Company surviving the Panhandle Merger. In connection with the Panhandle Merger, the Company assumed Southern Union’s obligations under its 7.6% Senior Notes due 2024, 8.25% Senior Notes due 2029 and Floating Rate Junior Subordinated Notes due 2066. At the time of the Panhandle Merger, Southern Union did not have material operations of its own, other than its ownership of the Company and noncontrolling interests in PEI Power II, LLC, Regency (31.4 million common units and 6.3 million Class F Units) and ETP (2.2 million common units). In connection with the Panhandle Merger, the Company also assumed PEPL Holdings’ guarantee of \$600 million of Regency senior notes.

#### **Trunkline LNG Transaction**

On February 19, 2014, Panhandle transferred to ETP all of the interests in Trunkline LNG, the entity that owns a LNG regasification facility in Lake Charles, Louisiana, in exchange for the cancellation of a \$1.09 billion note payable to ETP that was assumed by the Company in the merger with Southern Union on January 10, 2014. Also on February 19, 2014, ETE and ETP completed the transfer to ETE of Trunkline LNG from ETP in exchange for the redemption by ETP of 18.7 million ETP common units held by ETE. The transaction was effective as of January 1, 2014, at which time Panhandle deconsolidated Trunkline LNG, including goodwill of \$184 million and intangible assets of \$50 million related to Trunkline LNG. The results of Trunkline LNG’s operations have not been presented as discontinued operations and Trunkline LNG’s assets and liabilities have not been presented as held for sale in the Company’s consolidated financial statements due to continuing involvement among the entities.

### ***2013 Transactions***

#### **Sale of Southern Union’s Distribution Operations**

In September 2013, Southern Union completed its sale of the assets of MGE for an aggregate purchase price of \$975 million, subject to customary post-closing adjustments. In December 2013, Southern Union completed its sale of the assets of NEG for cash proceeds of \$40 million, subject to customary post-closing adjustments, and the assumption of \$20 million of debt.

MGE and NEG have been classified as discontinued operations in the condensed consolidated statements of operations.

#### **SUGS Contribution**

On April 30, 2013, Southern Union completed its contribution to Regency of all of the issued and outstanding membership interest in Southern Union Gathering Company, LLC, and its subsidiaries, including SUGS (the “SUGS Contribution”). The general partner and IDRs of Regency are owned by ETE. The consideration paid by Regency in connection with this transaction consisted of (i) the issuance of approximately 31.4 million Regency common units to Southern Union, (ii) the issuance of approximately 6.3 million Regency Class F units to Southern Union, (iii) the distribution of \$463 million in cash to Southern Union, net of closing adjustments, and (iv) the payment of \$30 million in cash to a subsidiary of ETP. This transaction was between commonly controlled entities; therefore, the amounts recorded in the consolidated balance sheet for the investment in Regency and the related deferred tax liabilities were based on the historical book value of SUGS. In addition, PEPL Holdings provided a guarantee of collection with respect to the payment of the principal amounts of Regency’s debt related to the SUGS Contribution. The Regency Class F units have the same rights, terms and conditions as the Regency common units, except that Southern Union will not receive distributions on the Regency Class F units for the first eight consecutive quarters following the closing, and the Regency Class F units will thereafter automatically convert into Regency common units on a one-for-one basis.

**3. RELATED PARTY TRANSACTIONS:**

Accounts receivable from related companies reflected on the condensed consolidated balance sheets primarily related to services provided for ETE, ETP and other affiliates. Accounts payable to related companies reflected on the condensed consolidated balance sheets primarily related to payroll funding and overhead allocation provided by ETP and other affiliates.

The following table provides a summary of the related party activity included in our condensed consolidated statements of operations:

	Three Months Ended March 31,	
	2014	2013
Operating revenues	\$ 20	\$ 20
Operating, maintenance and general	12	13
Interest expense, net of interest capitalized	—	25
Interest income - affiliates	5	—
Earnings (losses) from unconsolidated investments	(8)	1

The Company received \$2 million and \$2 million in distributions related to its investment in ETP during the three months ended March 31, 2014 and 2013, respectively. The Company also received \$15 million in distributions related to its investment in Regency during the three months ended March 31, 2014.

**4. INVESTMENTS IN UNCONSOLIDATED AFFILIATES:**

The Company's investment in Regency is reflected in our consolidated financial statements using the equity method. This investment consists of approximately 31.4 million Regency common units and approximately 6.3 million Regency Class F units that were issued to Southern Union as consideration for the SUGS Contribution.

The following table presents aggregated selected income statement data for Regency (on a 100% basis for all periods presented).

	Three Months Ended March 31, 2014
Revenue	\$ 863
Operating income	22
Net income	12

In addition to the equity method investment described above, we have other equity method investments which are not individually significant to our consolidated financial statements.

**5. ACCUMULATED OTHER COMPREHENSIVE INCOME:**

As of March 31, 2014 and December 31, 2013, accumulated other comprehensive income consists of net actuarial gains and prior service costs related to our OPEB plans.

**6. DEBT OBLIGATIONS:**

Based on the estimated borrowing rates currently available to the Company and its subsidiaries for loans with similar terms and average maturities, the aggregate fair value of the Company's consolidated debt obligations at March 31, 2014 and December 31, 2013 was \$1.26 billion and \$2.38 billion, respectively. As of March 31, 2014 and December 31, 2013, the aggregate carrying amount of the Company's consolidated debt obligations was \$1.20 billion and \$2.34 billion, respectively. The fair value of the Company's consolidated debt obligations is a Level 2 valuation based on the observable inputs used for similar liabilities.

**Assumption of Southern Union Debt**

In connection with the consummation of the Panhandle Merger, Panhandle assumed Southern Union’s long-term debt obligations. As of March 31, 2014, the long-term debt assumed in the Panhandle Merger consisted of \$83 million in aggregate principal amount of 7.6% Senior Notes due 2024, \$33 million in aggregate principal amount of 8.25% Senior Notes due 2029 and \$54 million in aggregate principal amount of Floating Rate Junior Subordinated Notes due 2066. The amounts recorded in the condensed consolidated balance sheet also reflected unamortized fair value adjustments, which were \$10 million in the aggregate at March 31, 2014.

In connection with the Trunkline LNG Transaction, the \$1.09 billion note payable to ETP that was assumed by the Company in the merger with Southern Union on January 10, 2014 was canceled.

**Compliance With Our Covenants**

The Company’s notes are subject to certain requirements, such as the maintenance of a fixed charge coverage ratio and a leverage ratio, which if not maintained, restrict the ability of the Company to make certain payments and impose limitations on the ability of the Company to subject its property to liens. Other covenants impose limitations on restricted payments, including dividends and loans to affiliates, and additional indebtedness. As of March 31, 2014, the Company was in compliance with these covenants.

**7. RETIREMENT BENEFITS:**

**Components of Net Periodic Benefit Cost**

The following tables set forth the components of net periodic benefit cost of the Company’s pension and OPEB plans:

	Pension Benefits		Other Postretirement Benefits	
	Three Months Ended March 31,		Three Months Ended March 31,	
	2014	2013	2014	2013
<b>Net Periodic Benefit Cost:</b>				
Service cost	\$ —	\$ 1	\$ —	\$ —
Interest cost	—	2	—	1
Expected return on plan assets	—	(3)	(1)	(2)
Actuarial loss amortization	—	1	—	—
	—	1	(1)	(1)
Regulatory adjustment <sup>(1)</sup>	—	2	—	—
Net periodic benefit cost	\$ —	\$ 3	\$ (1)	\$ (1)

<sup>(1)</sup> The Company has historically recovered certain qualified pension benefit plan and other postretirement benefit plan costs through rates charged to utility customers. Certain utility commissions require that the recovery of these costs be based on the Employee Retirement Income Security Act of 1974, as amended, or other utility commission specific guidelines. The difference between these regulatory-based amounts and the periodic benefit cost calculated pursuant to GAAP is deferred as a regulatory asset or liability and amortized to expense over periods in which this difference will be recovered in rates, as promulgated by the applicable utility commission.

The Company no longer has pension plans after the sale of the assets of MEG and NEG in 2013.

**8. TAXES ON INCOME:**

The increase in the effective tax rate for the three months ended March 31, 2014 was primarily due to the Trunkline LNG Transaction (see Note 2). The Trunkline LNG Transaction, which was treated as a sale for tax purposes, resulted in \$80 million of incremental income tax expense.

**9. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES:**

The Company is exposed to certain risks in its ongoing business operations. The primary risk managed by using derivative instruments is interest rate risk. Interest rate swaps and treasury rate locks are the principal derivative instruments used by

the Company to manage interest rate risk associated with its long-term borrowings, although other interest rate derivative contracts may also be used from time to time. Southern Union was also previously exposed to commodity price risk in its gathering and processing and distribution operations. Natural gas price swaps were the principal derivative instruments used by Southern Union to manage commodity price risk associated with purchases and/or sales of natural gas, although other commodity derivative contracts were used from time to time. The Company recognizes all derivative assets and liabilities at fair value on the condensed consolidated balance sheets.

**Interest Rate Contracts**

The Company may enter into interest rate swaps to manage its exposure to changes in interest payments on long-term debt attributable to movements in market interest rates, and may enter into treasury rate locks to manage its exposure to changes in future interest payments attributable to changes in treasury rates prior to the issuance of new long-term debt instruments.

**Interest Rate Swaps.** The Company has outstanding interest rate swap agreements to hedge floating rate notes with an aggregate notional amount of \$275 million, all of which are for ten-year periods. The Company settled \$50 million of five-year swaps during the third quarter of 2013, \$175 million of ten-year swaps during the fourth quarter of 2013 and \$25 million of five-year swaps during the fourth quarter of 2013. These interest rate swaps became effective on November 1, 2011. The Company pays interest on the floating rate notes based on three-month LIBOR plus a credit spread of 3.0175% beginning November 1, 2011. The interest rate swaps effectively fix the floating rate LIBOR-based portion of the interest payments on the swapped notes to a weighted average fixed rate of 3.801%.

**Summary Financial Statement Information**

The following table summarizes the fair value amounts of the Company’s asset and liability derivative instruments and their location reported in the condensed consolidated balance sheets:

Balance Sheet Location	Fair Value			
	Asset Derivatives		Liability Derivatives	
	March 31, 2014	December 31, 2013	March 31, 2014	December 31, 2013
<b>Economic Hedges:</b>				
Interest rate contracts:				
Derivative instruments — liabilities	\$ —	\$ —	\$ 10	\$ 10
Deferred credits	—	—	18	15
<b>Total</b>	<b>\$ —</b>	<b>\$ —</b>	<b>\$ 28</b>	<b>\$ 25</b>

The following tables summarize the location and amount (excluding income tax effects) of derivative instrument gains and losses reported in the Company’s condensed consolidated financial statements:

	Three Months Ended March 31,	
	2014	2013
<b>Economic Hedges:</b>		
Interest rate contracts:		
Change in fair value — increase (decrease) in interest expense	\$ (3)	\$ 5
Commodity contracts:		
Change in fair value — decrease in deferred natural gas purchases	—	(13)

**10. FAIR VALUE MEASUREMENT:**

The following table sets forth the Company's assets and liabilities that are measured at fair value on a recurring basis:

	Fair Value as of March 31, 2014	Fair Value Measurements at March 31, 2014 Using Fair Value Hierarchy	
		Level 1	Level 2
<b>Assets:</b>			
Total	\$ —	\$ —	\$ —
<b>Liabilities:</b>			
Interest rate swaps	\$ 28	\$ —	\$ 28
Total	\$ 28	\$ —	\$ 28

The Company's Level 2 instruments primarily include interest rate swap derivatives that are valued using pricing models based on an income approach that discounts future cash flows to a present value amount. The significant pricing model inputs for interest rate swaps include published rates for U.S. Dollar LIBOR interest rate swaps. The pricing models also adjust for nonperformance risk associated with the counterparty or Company, as applicable, through the use of credit risk adjusted discount rates based on published default rates. During the period ended March 31, 2014, no transfers were made between any levels within the fair value hierarchy.

**11. REGULATORY MATTERS, COMMITMENTS, CONTINGENCIES AND ENVIRONMENTAL LIABILITIES:****Sea Robin Rate Case**

On December 2, 2013, Sea Robin filed a general NGA Section 4 rate case at the FERC as required by a previous rate case settlement. In the filing, Sea Robin seeks to increase its authorized rates to recover costs related to asset retirement obligations, depreciation, and return and taxes. The outcome of the filing will be determined by a regulatory process that includes a hearing currently scheduled for the fourth quarter of 2014, with a Commission order expected in 2015.

**PEPL Holdings Guarantee of Collection**

In connection with the SUGS Contribution, Regency issued \$600 million of 4.50% Senior Notes due 2023 (the "Regency Debt"), the proceeds of which were used by Regency to fund the cash portion of the consideration, as adjusted, and pay certain other expenses or disbursements directly related to the closing of the SUGS Contribution. Pursuant to an agreement between Regency and PEPL Holdings, PEPL Holdings provided a guarantee of collection (on a nonrecourse basis to Southern Union) to Regency and Regency Energy Finance Corp. with respect to the payment of the principal amount of the Regency Debt through maturity in 2023. In connection with the completion of the Panhandle Merger, in which PEPL Holdings was merged with and into Panhandle, the guarantee of collection for the Regency Debt was assumed by Panhandle.

**Environmental Matters**

The Company's operations are subject to federal, state and local laws, rules and regulations regarding water quality, hazardous and solid waste management, air quality control and other environmental matters. These laws, rules and regulations require the Company to conduct its operations in a specified manner and to obtain and comply with a wide variety of environmental registrations, licenses, permits, inspections and other approvals. Failure to comply with environmental laws, rules and regulations may expose the Company to significant fines, penalties and/or interruptions in operations. The Company's environmental policies and procedures are designed to achieve compliance with such applicable laws and regulations. These evolving laws and regulations and claims for damages to property, employees, other persons and the environment resulting from current or past operations may result in significant expenditures and liabilities in the future. The Company engages in a process of updating and revising its procedures for the ongoing evaluation of its operations to identify potential environmental exposures and enhance compliance with regulatory requirements.

## Environmental Remediation

The Company is responsible for environmental remediation at certain sites on its natural gas transmission systems for contamination resulting from the past use of lubricants containing PCBs in compressed air systems; the past use of paints containing PCBs; and the prior use of wastewater collection facilities and other on-site disposal areas. The Company has implemented a program to remediate such contamination. The primary remaining remediation activity on the Panhandle systems is associated with past use of paints containing PCBs or PCB impacts to equipment surfaces and to a building at one location. The PCB assessments are ongoing and the related estimated remediation costs are subject to further change. Other remediation typically involves the management of contaminated soils and may involve remediation of groundwater. Activities vary with site conditions and locations, the extent and nature of the contamination, remedial requirements, complexity and sharing of responsibility. The ultimate liability and total costs associated with these sites will depend upon many factors. If remediation activities involve statutory joint and several liability provisions, strict liability, or cost recovery or contribution actions, the Company could potentially be held responsible for contamination caused by other parties. In some instances, the Company may share liability associated with contamination with other potentially responsible parties. The Company may also benefit from contractual indemnities that cover some or all of the cleanup costs. These sites are generally managed in the normal course of business or operations.

The Company's environmental remediation activities are undertaken in cooperation with and under the oversight of appropriate regulatory agencies, enabling the Company under certain circumstances to take advantage of various voluntary cleanup programs in order to perform the remediation in the most effective and efficient manner.

## Environmental Remediation Liabilities

The table below reflects the amount of accrued liabilities recorded on the condensed consolidated balance sheets at the dates indicated to cover environmental remediation actions where management believes a loss is probable and reasonably estimable. The Company does not have any material environmental remediation matters assessed as reasonably possible.

	March 31, 2014	December 31, 2013
Current	\$ 2	\$ 2
Non-current	3	3
Total environmental liabilities	<u>\$ 5</u>	<u>\$ 5</u>

## Litigation and Other Claims

The Company is involved in legal, tax and regulatory proceedings before various courts, regulatory commissions and governmental agencies regarding matters arising in the ordinary course of business.

**Attorney General of the Commonwealth of Massachusetts v New England Gas Company.** On July 7, 2011, the Massachusetts Attorney General ("AG") filed a regulatory complaint with the Massachusetts Department of Public Utilities ("MDPU") against New England Gas Company with respect to certain environmental cost recoveries. The AG is seeking a refund to New England Gas Company customers for alleged "excessive and imprudently incurred costs" related to legal fees associated with Southern Union's environmental response activities. In the complaint, the AG requests that the MDPU initiate an investigation into the New England Gas Company's collection and reconciliation of recoverable environmental costs including: (i) the prudence of any and all legal fees, totaling \$19 million, that were charged by the Kasowitz, Benson, Torres & Friedman firm and passed through the recovery mechanism since 2005, the year when a partner in the firm, Southern Union's former Vice Chairman, President and Chief Operating Officer, joined Southern Union's management team; (ii) the prudence of any and all legal fees that were charged by the Bishop, London & Dodds firm and passed through the recovery mechanism since 2005, the period during which a member of the firm served as Southern Union's Chief Ethics Officer; and (iii) the propriety and allocation of certain legal fees charged that were passed through the recovery mechanism that the AG contends only qualify for a lesser, 50%, level of recovery. Southern Union has filed its answer denying the allegations and moved to dismiss the complaint, in part on a theory of collateral estoppel. The hearing officer has deferred consideration of Southern Union's motion to dismiss. The AG's motion to be reimbursed expert and consultant costs by Southern Union of up to \$150,000 was granted. By tariff, these costs are recoverable through rates charged to New England Gas Company customers. The hearing officer previously stayed discovery pending resolution of a dispute concerning the applicability of attorney-client privilege to legal billing invoices. The MDPU issued an interlocutory order on June 24, 2013 that lifted the stay, and discovery has resumed. The Company (as successor to Southern Union) believes it has complied with all applicable requirements regarding its filings for cost recovery and has not recorded any accrued liability; however, the Company will continue to assess its potential exposure for such cost recoveries as the matter progresses.

### **Liabilities for Litigation and Other Claims**

The Company records accrued liabilities for litigation and other claim costs when management believes a loss is probable and reasonably estimable. When management believes there is at least a reasonable possibility that a material loss or an additional material loss may have been incurred, the Company discloses (i) an estimate of the possible loss or range of loss in excess of the amount accrued; or (ii) a statement that such an estimate cannot be made. As of March 31, 2014 and December 31, 2013, the Company recorded litigation and other claim-related accrued liabilities of \$23 million and \$24 million, respectively. The Company does not have any material litigation or other claim contingency matters assessed as probable or reasonably possible that would require disclosure in the financial statements.

### **Other Commitments and Contingencies**

**Unclaimed Property Audits.** The Company is subject to the laws and regulations of states and other jurisdictions concerning the identification, reporting and escheatment (the transfer of property to the state) of unclaimed or abandoned funds, and is subject to audit and examination for compliance with these requirements. The Company is currently being examined by a third party auditor on behalf of nine states for compliance with unclaimed property laws.

## **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

(Tabular dollar amounts are in millions)

The information in Item 2 has been prepared pursuant to the reduced disclosure format permitted by General Instruction H to Form 10-Q. Accordingly, this Item 2 includes only management's narrative analysis of the results of operations and should be read in conjunction with (i) our historical condensed consolidated financial statements and accompanying notes thereto included elsewhere in this Quarterly Report on Form 10-Q; (ii) our Annual Report on Form 10-K for the year ended December 31, 2013 filed with the SEC on February 27, 2014; and (iii) our management's discussion and analysis of financial condition and results of operations included in our 2013 Form 10-K.

References to "we," "us," "our," the "Company" or "Panhandle" shall mean Panhandle Eastern Pipe Line Company, LP and its subsidiaries.

### **RESULTS OF OPERATIONS**

We have accounted for the Panhandle Merger as a reorganization of entities under common control; therefore, the consolidated financial statements of the Company were retrospectively adjusted to consolidate Southern Union for all periods. As a result of this retrospective consolidation, the Company's consolidated results of operations for the three months ended March 31, 2013 include Southern Union's former natural gas gathering and processing operations, which were contributed to an affiliate in 2013, and Southern Union's former local distribution operations, which were sold in 2013 and were presented as discontinued operations.

The following table illustrates the results of operations of the Company:

	Three Months Ended March 31,	
	2014	2013
<b>OPERATING REVENUES:</b>		
Transportation and storage of natural gas	\$ 170	\$ 138
LNG terminalling	—	59
NGL sales	—	172
Other	8	24
Total operating revenues <sup>(1)</sup>	178	393
<b>OPERATING EXPENSES:</b>		
Cost of natural gas and other energy	—	159
Operating, maintenance and general	57	120
Depreciation and amortization	31	59
Total operating expenses	88	338
OPERATING INCOME	90	55
<b>OTHER INCOME (EXPENSE):</b>		
Interest expense, net of interest capitalized	(12)	(33)
Equity in earnings (losses) of unconsolidated affiliates	(8)	1
Interest income - affiliates	5	—
Losses on interest rate derivatives	(6)	—
Other, net	2	1
Total other expenses, net	(19)	(31)
INCOME FROM CONTINUING OPERATIONS BEFORE INCOME TAX EXPENSE	71	24
Income tax expense from continuing operations	106	10
INCOME (LOSS) FROM CONTINUING OPERATIONS	(35)	14
Income from discontinued operations	—	22
NET INCOME (LOSS)	(35)	36
LESS: NET INCOME (LOSS) ATTRIBUTABLE TO NONCONTROLLING INTEREST	6	(6)
NET INCOME (LOSS) ATTRIBUTABLE TO PARTNERS	\$ (41)	\$ 42
Panhandle natural gas volumes transported (TBtu): <sup>(2)</sup>		
PEPL	212	177
Trunkline	203	180
Sea Robin	34	40

<sup>(1)</sup> Reservation revenues comprised 67% and 82% of total Panhandle operating revenues for the three months ended March 31, 2014 and 2013, respectively, as parking revenues were higher in the current period than in the prior year.

<sup>(2)</sup> Includes transportation deliveries made throughout the Company's pipeline network.

The following is a discussion of the significant items and variances impacting the Company's net income during the periods presented above:

- *Operating Revenues.* Operating revenues decreased for the three months ended March 31, 2014 compared to the same period in the prior year primarily due to the deconsolidation of Trunkline LNG and SUGS. This was partially offset by an increase in loan-related and firm reservation transportation revenues due to colder weather in the first quarter of 2014.
- *Operating Expenses.* Operating expenses decreased for the three months ended March 31, 2014 compared to the same period in the prior year primarily due to the deconsolidation of SUGS and Trunkline LNG, as well as reduced general and administrative costs related to professional fees and employee costs.

- *Interest Expense.* Interest expense decreased for the three months ended March 31, 2014 compared to the same period in the prior year due to the repayment of long-term debt during 2013.
- *Equity in (Earnings) Losses of Unconsolidated Affiliates.* Regency issued common units in connection with its acquisitions during the three months ended March 31, 2014. As a result, the Company recognized non-cash losses based on the reduction of its proportionate ownership in Regency.
- *Income Taxes.* The increase in the effective tax rate for the three months ended March 31, 2014 was primarily due to the Trunkline LNG Transaction (see Note 2). The Trunkline LNG Transaction, which was treated as a sale for tax purposes, resulted in \$80 million of incremental income tax expense.
- *Income From Discontinued Operations.* Income from discontinued operations for the three months ended March 31, 2013 reflected the results of operations of MGE and NEG, both of which were sold in 2013.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Item 3, Quantitative and Qualitative Disclosures About Market Risk, has been omitted from this report pursuant to the reduced disclosure format permitted by General Instruction H to Form 10-Q.

### **ITEM 4. CONTROLS AND PROCEDURES**

#### **Evaluation of Disclosure Controls and Procedures**

We have established disclosure controls and procedures to ensure that information required to be disclosed by us, including our consolidated entities, in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

Under the supervision and with the participation of senior management, including the Chief Executive Officer ("Principal Executive Officer") and the Chief Financial Officer ("Principal Financial Officer") of our General Partner, we evaluated our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Exchange Act. Based on this evaluation, the Principal Executive Officer and the Principal Financial Officer of our General Partner concluded that our disclosure controls and procedures were effective as of March 31, 2014 to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act (1) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (2) is accumulated and communicated to management, including the Principal Executive Officer and Principal Financial Officer of our General Partner, to allow timely decisions regarding required disclosure.

Our auditor has communicated what they believe is a material weakness in internal control related to the determination of income tax expense; however, we have assessed the deficiency and concluded it to be a significant deficiency and considered in coming to the conclusion that our disclosure controls and procedures as of March 31, 2014 were effective.

#### **Changes in Internal Control over Financial Reporting**

There have been no changes in our internal controls over financial reporting (as defined in Rule 13(a)-15(f) or Rule 15d-15(f) of the Exchange Act) during the three months ended March 31, 2014 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

## **PART II. OTHER INFORMATION**

### **ITEM 1. LEGAL PROCEEDINGS**

The Company is a party to or has property subject to litigation and other proceedings, including matters arising under provisions relating to the protection of the environment, as described in Note 11 in this Quarterly Report on Form 10-Q and in Note 14 in the Company's Form 10-K for the year ended December 31, 2013.

The Company is subject to federal and state requirements for the protection of the environment, including those for the discharge of hazardous materials and remediation of contaminated sites. As a result, the Company is a party to or has its property subject to various other lawsuits or proceedings involving environmental protection matters. For information regarding these matters, see Note 11 in this Quarterly Report on Form 10-Q and Note 14 included in the Company's Form 10-K for the year ended December 31, 2013.

### **ITEM 1A. RISK FACTORS**

There have been no material changes to the risk factors previously disclosed in the Company's Form 10-K filed with the SEC on February 27, 2014.

**ITEM 6. EXHIBITS**

The exhibits listed below are filed as part of this report:

<b>Exhibit Number</b>	<b>Description</b>
3.1	Amendment No. 1, dated January 10, 2014 to Agreement of Limited Partnership of Panhandle Eastern Pipe Line Company, LP (incorporated by reference to Exhibit 3.1 to the Registrant's Form 8-K filed on January 10, 2014)
10.1	Transfer Agreement, dated February 19, 2014, by and between Energy Transfer Partners, L.P. and Panhandle Eastern Pipe Line Company, LP (incorporated by reference to Exhibit 10.1 to the Registrant's Form 8-K filed on February 19, 2014)
31.1	Certification of Principal Executive Officer pursuant to Rule 13a-14(a) or 15d-14(a) of the Securities Exchange Act of 1934 pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2	Certification of Principal Financial Officer pursuant to Rule 13a-14(a) or 15d-14(a) of the Securities Exchange Act of 1934 pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
(*) 32.1	Certification of Principal Executive Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
(*) 32.2	Certification of Principal Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

**SIGNATURE**

Pursuant to the requirements of the Securities Exchange Act of 1934, Panhandle Eastern Pipe Line Company, LP has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

PANHANDLE EASTERN PIPE LINE COMPANY, LP

(Registrant)

Date: May 15, 2014

By: /s/ Martin Salinas, Jr.

Martin Salinas, Jr.

Chief Financial Officer (duly authorized to sign on behalf of the registrant)

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER  
PURSUANT TO  
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Kelcy L. Warren, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Panhandle Eastern Pipe Line Company, LP;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
