NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollar amounts in thousands, except unit and per unit data)
(unaudited)

1. OPERATIONS AND ORGANIZATION:

The accompanying financial statements should be read in conjunction with the Partnership's consolidated financial statements as of August 31, 2000, and the notes thereto included in the Partnership's consolidated financial statements included in Form 10-K as filed with the Securities and Exchange Commission on November 29, 2000. The accompanying financial statements include only normal recurring accruals and all adjustments that the Partnership considers necessary for a fair presentation. Due to the seasonal nature of the Partnership's business, the results of operations for interim periods are not necessarily indicative of the results to be expected for a full year.

In August 2000, TECO Energy, Inc., Atmos Energy Corporation, Piedmont Natural Gas Co., Inc., and AGL Resources, Inc. contributed each company's propane operations, Peoples Gas Company ("Peoples Gas"), United Cities Propane Gas, Inc. ("United Cities"), Piedmont Propane Company ("Piedmont") and AGL Propane, Inc., ("AGL") respectively, to U.S. Propane L.P., ("U.S. Propane") in exchange for equity interests in U.S. Propane. The merger was accounted for as an acquisition using the purchase method of accounting with Peoples Gas being the acquirer. Accordingly, Peoples Gas' assets and liabilities were recorded at historical cost and the assets and liabilities of United Cities, Piedmont and AGL were recorded at fair market value, as determined based on a valuation and appraisal. The purchase allocations were as follows:

Purchase price of Piedmont, AGL and United Cities	\$ 112,338
Net book value of Piedmont, AGL and United Cities	82,765

Step-up of net book value, allocated to property, plant and equipment	\$ 29,573
	=====

In August 2000, U.S. Propane acquired all of the outstanding common stock of Heritage Holdings, Inc., ("General Partner"), the General Partner of Heritage Propane Partners, L.P., for \$120,000. By virtue of Heritage Holdings, Inc.'s general partner and limited partner interests in Heritage Propane Partners, L.P., U.S. Propane gained control of Heritage Propane Partners, L.P. Simultaneously, U.S. Propane transferred its propane operations, consisting of its interest in four separate limited liability companies, AGL Propane, L.L.C., Peoples Gas Company, L.L.C., United Cities Propane Gas, L.L.C. and Retail Propane Company, L.L.C. (former Piedmont operations), (collectively, the "Propane LLCs"), to Heritage Propane Partners, L.P. for \$181,395 plus working capital. The \$181,395 was payable \$139,552 in cash, \$31,843 of assumed debt, and the issuance of 372,392 Common Units of Heritage Propane Partners, L.P. valued at \$7,348 and a 1.0101 percent limited partnership interest in Heritage Propane Partners, L.P.'s operating partnership, Heritage Operating, L.P., valued at \$2,652. The purchase price and the exchange price for the Common Units were approved by an independent committee of the Board of Directors of Heritage Holdings, Inc. The exchange price for the Common Units was \$19.73125 per unit under a formula based on the average closing price of Heritage Propane Partners L.P.'s Common Units on the New York Stock Exchange for the twenty (20) day period beginning ten (10) days prior to the public announcement of the transaction on June 15, 2000 (the "Formula Price"). An additional payment of \$5,000 was accrued at August 31, 2000 for the working capital adjustment and was paid in March 2001. An additional \$6,500 was recorded at February 28, 2001 and recorded as additional goodwill. The final working capital adjustment is anticipated to be settled in April 2001. To the extent the final payment is more than the remaining amount of \$6,500, goodwill recorded in the transaction will be adjusted.

Concurrent with the acquisition, Heritage Propane Partners, L.P. borrowed \$180,000 from several institutional investors and sold 1,161,814 Common Units and 1,382,514 Class B Subordinated Units in a private placement to the former shareholders of Heritage Holdings, Inc. based on the Formula Price resulting in net proceeds of \$50,203. The total of these proceeds was utilized to finance the transaction and retire a portion of existing debt.

The merger was accounted for as a reverse acquisition in accordance with Accounting Principles Board Opinion No. 16. The propane operations of Heritage Propane Partners, L.P. prior to the series of transactions with U.S. Propane are referred to as Predecessor Heritage. Although Predecessor Heritage is the surviving entity for legal purposes, U.S. Propane's propane operations is the acquirer for accounting purposes. The assets and liabilities of Predecessor

Heritage have been recorded at fair value to the extent acquired by U.S. Propane's propane operations, approximately 36 percent, in accordance with Emerging Issues Task Force Issue No. 90-13, "Accounting for Simultaneous Common Control Mergers." The assets and liabilities of U.S. Propane have been recorded at historical cost, as recorded in the U.S. Propane transaction described above. The combined operations of Predecessor Heritage and U.S. Propane are referred to herein as "Heritage." Although the equity accounts of Peoples Gas survive the merger, Predecessor Heritage's partnership structure and partnership units survive. Accordingly, the equity accounts of Peoples Gas have been restated based on the general partner interest and common units received by Peoples Gas in the merger.

The excess purchase price over Predecessor Heritage's cost was determined as follows:

Net book value of Predecessor Heritage at August 9, 2000	\$ 35,716
Equity investment	50,203

	85,919
Percent of Predecessor Heritage acquired by U.S. Propane	36%

Equity interest acquired	\$ 30,931
	=====
Purchase price	\$ 120,000
Equity interest acquired	30,931

Excess purchase price over Predecessor Heritage cost	\$ 89,069
	=====

The excess purchase price over Predecessor Heritage cost was allocated as follows:

Property, plant and equipment (25 year life)	\$ 11,180
Customer lists (15 year life)	5,935
Goodwill (30 year life)	71,954

	\$ 89,069
	=====

The accompanying financial statements for the three-month and six-month periods ended February 28, 2001 include the results of operations of Heritage. The financial statements of Peoples Gas are the prior period financial statements of the registrant as Peoples Gas was the acquirer in the transaction in which U.S. Propane was formed. The accompanying financial statements for the three month and six month periods ended March 31, 2000 have been presented on a carve-out basis and reflect the historical results of operations, financial position and cash flows of Peoples Gas. Certain expenses in the financial statements include allocations from TECO Energy, Inc. ("TECO") and other wholly-owned subsidiaries of TECO. Management believes that the allocations were made on a reasonable basis; however, the allocations of costs and expenses do not necessarily indicate the costs that would have been incurred by Peoples Gas on a stand-alone basis. Also, the financial statements may not necessarily reflect what the financial position, results of operations and cash flows of Peoples Gas would have been if Peoples Gas had been a separate, stand-alone company during the periods presented. Peoples Gas had a fiscal year-end of December 31, however, Heritage will continue to have Predecessor Heritage's August 31 year-end.

The following unaudited pro forma consolidated results of operations are presented as if the series of transactions with U.S. Propane and Predecessor Heritage had been made at the beginning of the period presented.

	Three months Ended March 31, 2000	Six months Ended March 31, 2000
	-----	-----
Total revenues	\$ 147,977	\$ 241,440
Net income	\$ 20,265	\$ 21,191
Basic and diluted earnings per common unit	\$ 1.57	\$ 1.67

The pro forma consolidated results of operations include adjustments to give effect to amortization of goodwill, interest expense on acquisition and assumed debt and certain other adjustments, including the elimination of income taxes. The unaudited pro forma information is not necessarily indicative of the results of operations that would have

occurred had the transactions been made at the beginning of the periods presented or the future results of the combined operations.

In order to simplify Heritage's obligation under the laws of several jurisdictions in which Heritage conducts business, Heritage's activities are conducted through a subsidiary operating partnership, Heritage Operating, L.P. (the "Operating Partnership"). Heritage holds a 97.9798 percent limited partner interest in the Operating Partnership. In addition, the General Partner and U.S. Propane each hold a 1.0101 percent limited partner interest in the Operating Partnership.

The Operating Partnership sells propane and propane-related products to more than 500,000 retail customers in 28 states throughout the United States. Heritage is also a wholesale propane supplier in the southwestern and southeastern United States and in Canada, the latter through participation in M-P Energy Partnership. M-P Energy Partnership is a Canadian partnership primarily engaged in lower-margin wholesale distribution in which Heritage owns a 60 percent interest. Heritage grants credit to its customers for the purchase of propane and propane-related products.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND BALANCE SHEET DETAIL:

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements of Heritage include the accounts of its subsidiaries, including Heritage Operating, L.P. ("Operating Partnership"), M-P Energy Partnership, Heritage Energy Resources, L.L.C. ("Resources") and the Propane LLCs. Heritage accounts for its 50 percent partnership interest in Bi-State Partnership, another propane retailer, under the equity method. All significant intercompany transactions and accounts have been eliminated in consolidation. The General Partner's 1.0101 percent limited partner interest and U.S. Propane's 1.0101 percent limited partner interest in the Operating Partnership are accounted for in the consolidated financial statements as minority interests.

REVENUE RECOGNITION

Sales of propane, propane appliances, parts and fittings are recognized at the later of the time of delivery of the product to the customer or the time of sale or installation. Revenue from service labor is recognized upon completion of the service, and tank rent is recognized ratably over the period it is earned.

INVENTORIES

Inventories are valued at the lower of cost or market. The cost of fuel inventories is determined using weighted-average cost, while the cost of appliances, parts and fittings is determined by the first-in, first-out method. Inventories consisted of the following:

	February 28, 2001	August 31, 2000
	-----	-----
Fuel	\$ 19,668	\$ 30,882
Appliances, parts and fittings	8,425	8,163

INCOME TAXES

For the three months and six months ended March 31, 2000, Peoples Gas followed the liability method of accounting for income taxes in accordance with Statement of Financial Accounting Standards ("SFAS") No. 109, "Accounting for Income Taxes" ("SFAS 109"). Under SFAS 109, deferred income taxes are recorded based upon differences between the financial reporting and tax basis of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the underlying assets are received and liabilities are settled. TECO retained all tax liabilities related to Peoples Gas that may have existed as of August 9, 2000.

Heritage is a limited partnership. As a result, Heritage's earnings or loss for federal income tax purposes is included in the tax returns of the individual partners. Accordingly, because of the merger, no recognition has been given to income taxes in the accompanying financial statements of Heritage for the three months and six months ended February 28, 2001. Net earnings for financial statement purposes may differ significantly from taxable income reportable to unit holders as a result of differences between the tax basis and financial reporting basis of assets and liabilities and the taxable income allocation requirements under the partnership agreement.

INCOME PER LIMITED PARTNER UNIT

Basic net income per limited partner unit is computed by dividing net income, after considering the General Partner's one percent interest, by the weighted average number of Common and Subordinated Units outstanding. Diluted net income per limited partner unit is computed by dividing net income, after considering the General Partner's one percent interest, by the weighted average number of Common and Subordinated Units outstanding and the weighted average number of Restricted Units ("Phantom Units") granted under the Restricted Unit Plan. A reconciliation of net income and weighted average units used in computing basic and diluted earnings per unit is as follows:

CASH DISTRIBUTIONS

Heritage is expected to make quarterly cash distributions of Available Cash, generally defined as consolidated cash receipts less consolidated operating expenses, debt service payments, maintenance capital expenditures and net changes in reserves established by the General Partner for future requirements. These reserves are retained to provide for the proper conduct of Heritage business, or to provide funds for distributions with respect to any one or more of the next four fiscal quarters.

Distributions by Heritage in an amount equal to 100 percent of Available Cash will generally be made 97 percent to the Common, Subordinated and Class B Subordinated Unitholders, 1.0101 percent to U.S. Propane for its limited partner interest in the Operating Partnership and 1.9899 percent to the General Partner, subject to the payment of incentive distributions to the holders of Incentive Distribution Rights to the extent that certain target levels of cash distributions are achieved.

On October 16, 2000, a quarterly distribution of \$.575 per Common and Subordinated Unit, was paid to Unitholders of record at the close of business on October 9, 2000 and to the General Partner for its General Partner interest in the Partnership, its Minority Interest and its Incentive Distribution Rights and to U.S. Propane for its limited partner interest. On January 15, 2001, a quarterly distribution of \$.5875 per Common and Subordinated Unit, was paid to

Unitholders of record at the close of business on January 4, 2001 and to the General Partner for its General Partner interest in the Partnership, its Minority Interest and its Incentive Distribution Rights and to U.S. Propane for its limited partner interest. On March 22, 2001 the Partnership declared a cash distribution for the second quarter ended February 28, 2001 of \$.60 per unit payable on April 16, 2001 to Unitholders of record at the close of business on April 2, 2001. This was the third increase to the distribution level this fiscal year.

SFAS 133 ACCOUNTING FOR CERTAIN DERIVATIVE INSTRUMENTS AND CERTAIN HEDGING ACTIVITIES

SFAS 133 establishes accounting and reporting standards requiring that every derivative instrument, including certain derivative instruments embedded in other contracts, and for hedging activities, be recorded on the balance sheet as either an asset or liability measured at its fair value. The statement requires that changes in the derivative's fair value be recognized currently in earnings unless specific hedge accounting criteria are met. Special accounting for qualifying hedges allows a derivative's gains and losses to offset related results on the hedged item in the income statement and requires that a company must formally document, designate and assess the effectiveness of transactions that receive hedge accounting. Heritage adopted the provisions of SFAS 133 effective September 1, 2000. The cumulative effect of adopting SFAS 133 was an adjustment to beginning other comprehensive income of \$5,429.

Heritage had certain financial swap instruments outstanding at February 28, 2001 that have been designated as cash flow hedging instruments in accordance with SFAS 133. A financial swap is a contractual agreement to exchange obligations of money between the buyer and seller of the instruments as propane volumes during the pricing period are purchased. The swaps are tied to a set fixed price for the buyer and floating price determinants for the seller priced on certain indices. Heritage entered into these instruments to hedge the forecasted propane volumes to be purchased during the one-month period ending March 31, 2001 and each of the one-month periods ending October 2001 through March 2002. Heritage utilizes hedging transactions to provide price protection against significant fluctuations in propane prices. These instruments had a fair value of \$571 as of February 28, 2001, which was recorded as other assets on the balance sheet through other comprehensive income, exclusive of \$22 of minority interest. During the three months and six months ended February 28, 2001, Heritage reclassified into earnings a gain of \$2,431 and \$3,295, respectively, that was reported in accumulated other comprehensive income.

MARKETABLE SECURITIES

Heritage's marketable securities are classified as available for sale securities as defined by SFAS No. 115 and are reflected as a current asset on the balance sheet at their fair value. Unrealized holding losses of \$214 and \$385 for the three months and six months ended February 28, 2001, respectively, were recorded through accumulated other comprehensive income based on the market value of the securities at February 28, 2001.

3. WORKING CAPITAL FACILITY AND LONG-TERM DEBT:

Effective December 28, 2000 Heritage entered into the Fourth Amendment to First Amended and Restated Credit Agreement, with various financial institutions, which amended the Senior Revolving Working Capital Facility to increase it to \$65,000. The terms of the Agreement as amended are as follows:

A \$65,000 Senior Revolving Working Capital Facility, expiring June 30, 2002, with \$12,000 outstanding at February 28, 2001. The interest rate and interest payment dates vary depending on the terms the Partnership agrees to when the money is borrowed. The weighted average interest rate was 8.496 percent for the amount outstanding at February 28, 2001. The Partnership must be free of all working capital borrowings for 30 consecutive days each fiscal year. The maximum commitment fee payable on the unused portion of the facility is .375 percent.

A \$50,000 Senior Revolving Acquisition Facility is available through December 31, 2001, at which time the outstanding amount must be paid in ten equal quarterly installments, beginning March 31, 2002. The interest rate and interest payment dates vary depending on the terms the Partnership agrees to when the money is borrowed. The average interest rate was 8.496 percent on the \$47,800 amount outstanding at February 28, 2001. The maximum commitment fee payable on the unused portion of the facility is .375 percent.

4. REPORTABLE SEGMENTS:

Heritage's financial statements reflect four reportable segments: the domestic retail operations of Heritage, the domestic wholesale operations of Heritage, the foreign wholesale operations of M-P Energy Partnership, and the trading activities of Resources. Heritage's reportable domestic and wholesale fuel segments are strategic business units that sell products and services to different types of users; retail and wholesale customers. Intersegment sales by the foreign wholesale segment to the domestic segment are priced in accordance with the partnership agreement. Resources is a trading company that buys and sells financial instruments for their own account. Heritage manages these segments separately as each segment involves different distribution, sale and marketing strategies. Heritage evaluates the performance of its operating segments based on operating income. The operating income below does not reflect selling, general, and administrative expenses of \$7,189, \$0, and \$1,939 for the three months ended February 28, 2001, March 31, 2000 and February 28, 2000, respectively or the selling, general, and administrative expenses of \$9,581, \$0, and \$3,353 for the six months ended February 28, 2001, March 31, 2000 and February 29, 2000. The following table presents the unaudited financial information by segment for the following periods:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

CERTAIN MATTERS DISCUSSED IN THIS REPORT, EXCLUDING HISTORICAL INFORMATION, AS WELL AS SOME STATEMENTS BY HERITAGE IN PERIODIC PRESS RELEASES, INCLUDE CERTAIN "FORWARD-LOOKING" STATEMENTS. ALTHOUGH HERITAGE BELIEVES SUCH FORWARD-LOOKING STATEMENTS ARE BASED ON REASONABLE ASSUMPTIONS AND CURRENT EXPECTATIONS AND PROJECTIONS ABOUT FUTURE EVENTS, NO ASSURANCE CAN BE GIVEN THAT EVERY OBJECTIVE WILL BE REACHED. SUCH STATEMENTS ARE MADE IN RELIANCE ON THE "SAFE HARBOR" PROTECTIONS PROVIDED UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995.

AS REQUIRED BY THAT LAW, HERITAGE HEREBY IDENTIFIES THE FOLLOWING IMPORTANT FACTORS THAT COULD CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM ANY RESULTS PROJECTED, FORECASTED OR ESTIMATED BY HERITAGE IN FORWARD-LOOKING STATEMENTS.

THESE RISKS AND UNCERTAINTIES INCLUDE, AMONG OTHER THINGS:

- CHANGES IN GENERAL ECONOMIC CONDITIONS IN THE UNITED STATES AS WELL AS CHANGES IN GENERAL ECONOMIC CONDITIONS AND CURRENCIES IN FOREIGN COUNTRIES;
- WEATHER CONDITIONS THAT VARY SIGNIFICANTLY FROM HISTORICALLY NORMAL CONDITIONS;
- THE GENERAL LEVEL OF PETROLEUM PRODUCT DEMAND, AND THE AVAILABILITY OF PROPANE SUPPLIES;
- ENERGY PRICES GENERALLY AND SPECIFICALLY, THE PRICE OF PROPANE TO THE CONSUMER COMPARED TO THE PRICE OF ALTERNATIVE AND COMPETING FUELS;

- COMPETITION FROM OTHER PROPANE DISTRIBUTORS AND ALTERNATE FUELS;
- THE AVAILABILITY AND COST OF CAPITAL;
- CHANGES IN LAWS AND REGULATIONS TO WHICH HERITAGE IS SUBJECT, INCLUDING TAX, ENVIRONMENTAL AND EMPLOYMENT REGULATIONS;
- THE COSTS AND EFFECTS OF LEGAL AND ADMINISTRATIVE PROCEEDINGS AGAINST HERITAGE OR WHICH MAY BE BROUGHT AGAINST HERITAGE;
- THE ABILITY OF HERITAGE TO SUSTAIN ITS HISTORICAL LEVELS OF INTERNAL GROWTH; AND
- THE ABILITY OF HERITAGE TO CONTINUE TO LOCATE AND ACQUIRE OTHER PROPANE COMPANIES AT PURCHASE PRICES THAT ARE ACCRETIVE TO ITS FINANCIAL RESULTS.

WEATHER AND SEASONALITY

Heritage's propane distribution business is seasonal and dependent upon weather conditions in its service areas. Propane sales to residential and commercial customers are affected by winter heating season requirements, which generally results in higher operating revenues and net income during the period from October through March of each year and lower operating revenues and either net losses or lower net income during the period from April through September of each year. Sales to industrial and agricultural customers are much less weather sensitive. In any given area, sustained warmer-than-normal temperatures will tend to result in reduced propane use, while sustained colder-than-normal temperatures will tend to result in greater propane use. Heritage therefore uses information derived from periods of normal temperatures in understanding how temperatures that are colder or warmer than normal affect historical results of operations and in preparing forecasts of future operations, which generally assumes that normal weather will prevail in each of the regions in which it operates.

Gross profit margins are not only affected by weather patterns but also by changes in customer mix. For example, sales to residential customers ordinarily generate higher margins than sales to other customer groups, such as commercial or agricultural customers. In addition, gross profit margins vary by geographic region. Accordingly, gross profit margins could vary significantly from year to year in a period of identical sales volumes.

GENERAL

Peoples Gas engaged in the sale, distribution and marketing of propane and other related products. Revenues were derived primarily from the retail propane marketing business. Peoples Gas believes that prior to the series of transactions with Atmos, AGL, Piedmont and Predecessor Heritage, it was among the top 25 retail propane marketers nationally and was the largest independent propane distributor in Florida. At the time of the transactions, Peoples Gas was serving more than 70,000 residential, commercial and industrial customers located in the Florida peninsula.

In August 2000, TECO Energy, Inc., Atmos Energy Corporation, Piedmont Natural Gas Company, Inc. and AGL Resources, Inc. contributed each company's propane operations, Peoples Gas Company ("Peoples Gas"), United Cities Propane Gas, Inc. ("United Cities"), Piedmont Propane Company ("Piedmont"), and AGL Propane, Inc. ("AGL"), respectively, to U.S. Propane, L.P. ("U.S. Propane") in exchange for equity interests in U.S. Propane. The merger was accounted for as an acquisition using the purchase method of accounting with Peoples Gas being the accounting acquirer.

Predecessor Heritage engaged in the sale, distribution and marketing of propane and other related products. Predecessor Heritage derived its revenues primarily from the retail propane marketing business. The General Partner believes that Predecessor Heritage was the seventh largest retail marketer of propane in the United States, based on retail gallons sold prior to the series of transactions with U.S. Propane, serving almost 286,000 residential, industrial/commercial and agricultural customers in 27 states through over 170 retail outlets. The General Partner believes that following the U.S. Propane transactions, Heritage is the fourth largest retail marketer of propane in the

United States, based on retail gallons sold. Heritage now serves nearly 500,000 residential, industrial/commercial and agricultural customers in 28 states through over 250 retail outlets.

Since its formation in 1989, Predecessor Heritage grew primarily through acquisitions of retail propane operations and, to a lesser extent, through internal growth. Through August 9, 2000, Predecessor Heritage completed 70 acquisitions for an aggregate purchase price of approximately \$297 million. Predecessor Heritage completed 42 of these acquisitions since its initial public offering on June 25, 1996. During the period between August 9, 2000 and February 28, 2001, Heritage completed 8 additional acquisitions.

The retail propane business of Heritage consists principally of transporting propane purchased in the contract and spot markets, primarily from major fuel suppliers, to its retail distribution outlets and then to tanks located on the customers' premises, as well as to portable propane cylinders. In the residential and commercial markets, propane is primarily used for space heating, water heating and cooking. In the agricultural market, propane is primarily used for crop drying, tobacco curing, poultry brooding and weed control. In addition, propane is used for certain industrial applications, including use as an engine fuel that burns in internal combustion engines that power vehicles and forklifts and as a heating source in manufacturing and mining processes.

The retail propane business is a "margin-based" business in which gross profits depend on the excess of sales price over propane supply costs. The market price of propane is often subject to volatile changes as a result of supply or other market conditions over which Heritage will have no control. Product supply contracts are one-year agreements subject to annual renewal and generally permit suppliers to charge posted prices (plus transportation costs) at the time of delivery or the current prices established at major delivery points. Since rapid increases in the wholesale cost of propane may not be immediately passed on to retail customers, such increases could reduce gross profits. In the past, Predecessor Heritage generally attempted to reduce price risk by purchasing propane on a short-term basis. Predecessor Heritage had on occasion purchased significant volumes of propane during periods of low demand, which generally occur during the summer months, at the then current market price, for storage both at its service centers and in major storage facilities for future resale.

The formation of U.S. Propane and the merger with Predecessor Heritage affect the comparability of the three and six month periods ended February 28, 2001 and March 31, 2000, because the volumes and results of operations for the three and six months ended February 28, 2001 include the volumes and results of operations of Heritage. The increases in the line items discussed below are a result of these transactions and the effects of slightly colder than normal weather experienced during the quarter and six months ended February 28, 2001. Amounts discussed below reflect 100 percent of the results of M-P Energy Partnership during the three and six months ended February 28, 2001. M-P Energy Partnership is a general partnership in which Heritage owns a 60 percent interest. Because M-P Energy Partnership is primarily engaged in lower-margin wholesale distribution, its contribution to Heritage's net income is not significant and the minority interest of this partnership is excluded from the EBITDA calculation.

THREE MONTHS ENDED FEBRUARY 28, 2001 COMPARED TO THE THREE MONTHS ENDED MARCH 31, 2000

Volume. Total retail gallons sold in the three months ended February 28, 2001 were 140.1 million, an increase of 131.2 million over the 8.9 million gallons sold in the three months ended March 31, 2000. As a comparison, Predecessor Heritage sold 77.4 million retail gallons in the three months ended February 29, 2000.

Revenues. Total revenues for the three months ended February 28, 2001 were \$326.8 million, an increase of \$312.4 million as compared to \$14.4 million in the three months ended March 31, 2000 and an increase of \$224.6 million over Predecessor Heritage's revenues for the three months ended February 29, 2000. The trading activity conducted through Heritage Energy Resources represented \$77.8 million of the increases described above and the remainder related to increased volumes related to the transactions referred to above and increased volumes related to colder temperatures in 2001 along with higher selling prices.

Cost of Products Sold. Total cost of products sold and trading activities increased to \$215.2 million for the three months ended February 28, 2001 as compared to \$7.9 million for the three months ended March 31, 2000. Of this increase, \$76.5 million is the result of trading activity during the three months ended February 28, 2001. Predecessor Heritage had cost of sales of \$57.3 million for the three months ended February 29, 2000. Fuel cost of sales increased due to the increases in volumes described above and due to the wholesale cost of propane for the three months ended February 28, 2001 being significantly higher as compared to the same time period last year.

Gross Profit. Total gross profit for the three months ended February 28, 2001 was \$111.6 million as compared to \$6.5 million for the three months ended March 31, 2000 due to the aforementioned increases in retail volumes and revenues, offset by the increase in product costs. For the three months ended February 28, 2001, retail fuel gross profit was \$100.1 million, U.S. wholesale was \$.4 million, and other gross profit was \$8.4 million. Foreign wholesale gross profit was \$1.4 million, and trading gross profit was \$1.3 million for the period ended February 28, 2001. As a comparison, for the three months ended February 29, 2000, Predecessor Heritage recorded retail fuel gross profit of \$39.2 million, wholesale fuel gross profit of \$.3 million, foreign gross profit of \$.6 million and other of \$4.8 million, for a total gross profit of \$44.9 million.

Operating Expenses. Operating expenses were \$41.5 million for the three months ended February 28, 2001 as compared to \$3.3 million for the three months ended March 31, 2000. The increase of \$38.2 million is the result of the additional operating expense related to the merger. Predecessor Heritage had operating expenses of \$17.0 million in the three months ended February 29, 2000.

Selling, General and Administrative. Selling, general and administrative expenses were \$7.2 million for the three months ended February 28, 2001. Peoples Gas did not classify any of their operating expenses as selling, general and administrative, so as a comparison Predecessor Heritage had selling, general and administrative expenses of \$1.9 million for the three months ended February 29, 2000. The increase of \$5.3 million is primarily due to the formation of U.S. Propane and the merger with Predecessor Heritage.

Depreciation and Amortization. Depreciation and amortization was \$10.3 million in the three months ended February 28, 2001 as compared to \$.8 million in the three months ended March 31, 2000 and \$4.7 million for Predecessor Heritage for the three months ended February 29, 2000. The increase is primarily attributable to the addition of property, plant and equipment, and intangible assets from the transactions referred to above.

Operating Income. For the three months ended February 28, 2001 Heritage had operating income of \$52.6 million as compared to operating income of \$2.4 million for the three months ended March 31, 2000. Predecessor Heritage reported operating income of \$21.3 million in the three months ended February 29, 2000.

Net Income. For the three-month period ended February 28, 2001, Heritage had net income of \$43.3 million, an increase of \$41.8 million as compared to net income for the three months ended March 31, 2000 of \$1.5 million. As a comparison, Heritage's current quarter net income of \$43.3 million, represents an increase of \$26.3 million over Predecessor Heritage's reported net income of \$17.0 million for the three months ended February 29, 2000.

EBITDA. Earnings before interest, taxes, depreciation and amortization increased \$60.8 million to \$63.9 million for the three months ended February 28, 2001, as compared to the EBITDA of \$3.1 million for the period ended March 31, 2000. The EBITDA for Predecessor Heritage for the three months ended February 29, 2000 was \$27.0 million. Heritage's EBITDA includes the EBITDA of investees, but does not include the EBITDA of the minority interest of M-P Energy Partnership. EBITDA should not be considered as an alternative to net income (as an indicator of operating performance) or as an alternative to cash flow (as a measure of liquidity or ability to service debt obligations), but provides additional information for evaluating Heritage's ability to make the Minimum Quarterly Distribution.

SIX MONTHS ENDED FEBRUARY 28, 2001 COMPARED TO THE SIX MONTHS ENDED MARCH 31, 2000

Volume. Total retail gallons sold in the six months ended February 28, 2001 were 214.2 million, an increase of 197.3 million over the 16.9 million gallons sold in the six months ended March 31, 2000. As a comparison, Predecessor Heritage sold 116.2 million retail gallons in the six months ended February 28, 2000.

Revenues. Total revenues for the six months ended February 28, 2001 were \$492.6 million, an increase of \$468.1 million as compared to \$24.5 million in the six months ended March 31, 2000 and an increase of \$338.6 million over Predecessor Heritage's revenues for the six months ended February 29, 2000. The trading activity conducted through Heritage Energy Resources represented \$126.1 million of the increases described above and the remainder related to increased volumes related to the transactions referred to above and increased volumes related to colder temperatures in the current heating season along with higher selling prices.

Cost of Products Sold. Total cost of products sold and trading activities increased to \$332.8 million for the six months ended February 28, 2001 as compared to \$13.1 million for the six months ended March 31, 2000. Of this

increase, \$124.3 million is the result of trading activity during the six months ended February 28, 2001. Predecessor Heritage had cost of sales of \$86.6 million for the six months ended February 29, 2000. Fuel cost of sales increased due to the increases in volumes described above and due to the wholesale cost of propane for the six months ended February 28, 2001 being significantly higher as compared to the same time period last year.

Gross Profit. Total gross profit for the six months ended February 28, 2001 was \$159.7 million as compared to \$11.4 million for the six months ended February 28, 2001 due to the aforementioned increases in retail volumes and revenues, offset by the increase in product costs. For the six months ended February 28, 2001, retail fuel gross profit was \$137.3 million, U.S. wholesale was \$.6 million, and other gross profit was \$18.1 million. Foreign wholesale gross profit and trading gross profit were both \$1.9 million for the period ended February 28, 2001. As a comparison, for the six months ended February 29, 2000, Predecessor Heritage recorded retail fuel gross profit of \$56.5 million, wholesale fuel gross profit of \$.4 million, foreign gross profit of \$1.1 million and other of \$9.4 million, for a total gross profit of \$67.4 million.

Operating Expenses. Operating expenses were \$67.1 million for the six months ended February 28, 2001 as compared to \$6.9 million for the six months ended March 31, 2000. The increase of \$60.2 million primarily is the result of the additional operating expense related to the merger and to a lesser extent, increased volumes due to cold weather and increased fuel costs which, affect the vehicle fuel costs. Predecessor Heritage had operating expenses of \$30.6 million in the six months ended February 29, 2000.

Selling, General and Administrative. Selling, general and administrative expenses were \$9.6 million for the six months ended February 28, 2001. Peoples Gas did not classify any of their operating expenses as selling, general and administrative, so as a comparison Predecessor Heritage had selling, general and administrative expenses of \$3.3 million for the six months ended February 29, 2000. The increase of \$6.3 million is primarily due to the transactions with U.S. Propane.

Depreciation and Amortization. Depreciation and amortization was \$19.8 million in the six months ended February 28, 2001 as compared to \$1.6 million in the six months ended March 31, 2000 and \$8.7 million for Predecessor Heritage for the six months ended February 29, 2000. The increase is primarily attributable to the addition of property, plant and equipment, and intangible assets from the transactions referred to above.

Operating Income. For the six months ended February 28, 2001 Heritage had operating income of \$63.2 million as compared to operating income of \$3.0 million for the six months ended March 31, 2000. Predecessor Heritage reported operating income of \$24.7 million in the six months ended February 29, 2000.

Net Income. For the six-month period ended February 28, 2001, Heritage had net income of \$45.3 million, an increase of \$43.6 million as compared to net income for the six months ended March 31, 2000 of \$1.7 million. As a comparison, Heritage's net income of \$45.3 million for the six months ended February 28, 2001, represents an increase of \$29.1 million over Predecessor Heritage's reported net income of \$16.2 million for the six months ended February 29, 2000.

EBITDA. Earnings before interest, taxes, depreciation and amortization increased \$80.1 million to \$84.5 million for the six months ended February 28, 2001, as compared to the EBITDA of \$4.4 million for the period ended March 31, 2000. The EBITDA for Predecessor Heritage for the six months ended February 29, 2000 was \$34.7 million. Heritage's EBITDA includes the EBITDA of investees, but does not include the EBITDA of the minority interest of M-P Energy Partnership. EBITDA should not be considered as an alternative to net income (as an indicator of operating performance) or as an alternative to cash flow (as a measure of liquidity or ability to service debt obligations), but provides additional information for evaluating Heritage's ability to make the Minimum Quarterly Distribution.

LIQUIDITY AND CAPITAL RESOURCES

The ability of Heritage to satisfy its obligations will depend on its future performance, which will be subject to prevailing economic, financial, business and weather conditions and other factors, many of which are beyond its control. Future capital requirements of Heritage are expected to be provided by cash flows from operating activities. To the extent future capital requirements exceed cash flows from operating activities:

- a) working capital will be financed by the working capital line of credit and repaid from subsequent seasonal reductions in inventory and accounts receivable;
- b) growth capital, expended mainly for customer tanks, will be financed by the revolving acquisition bank line of credit; and
- c) acquisition capital expenditures will be financed by the revolving acquisition bank line of credit; other lines of credit, long term debt, issues of additional Common Units or a combination thereof.

Operating Activities. Cash provided by operating activities during the six months ended February 28, 2001, was \$49.2 million. The net cash provided from operations for the six months ended February 28, 2001 consisted of net income of \$45.3 million and noncash charges of \$22.0 million, principally depreciation and amortization offset by the impact of working capital used of \$18.1 million. Accounts receivable have increased significantly as compared to the prior year as a result of the net effect of the increase in propane costs and increased volume due to colder temperatures which in part was passed on to the customers. A larger customer base due to the transactions with U.S. Propane also contributed to the increase in accounts receivable. Accounts payable has also increased due to the same related reasons of the increased cost of propane and the merger.

Investing Activities. Heritage completed eight acquisitions during the six months ended February 28, 2001 spending \$44.5 million, net of cash received, to purchase propane companies. This capital expenditure amount is reflected in the cash used in investing activities of \$60.1 million along with a net \$11.1 million invested for maintenance needed to sustain operations at current levels and customer tanks to support growth of operations. Other investing activities include \$4.5 million of cash paid for marketable securities.

Financing Activities. Cash provided by financing activities during the six months ended February 28, 2001 of \$17.5 million resulted mainly from a net decrease in the working capital facility of \$12.2 million and a net increase in the Acquisition Facility of \$45.9 million used to acquire other propane businesses. These increases were offset by cash distributions to unitholders of \$15.4 million and payments on other long-term debt of \$.8 million.

Financing and Sources of Liquidity

The Partnership has a Bank Credit Facility, which includes a Working Capital Facility, a revolving credit facility providing for up to \$65.0 million of borrowings to be used for working capital and other general partnership purposes, and an Acquisition Facility, a revolving credit facility providing for up to \$50.0 million of borrowings to be used for acquisitions and improvements. As of February 28, 2001, the Acquisition Facility had \$2.2 million available to fund future acquisitions and the Working Capital Facility had \$53.0 million available for borrowings.

Heritage uses its cash provided by operating and financing activities to provide distributions to unitholders and to fund acquisition, maintenance and growth capital expenditures. Acquisition capital expenditures, which include expenditures related to the acquisition of retail propane operations and intangibles associated with such acquired businesses, were \$44.5 million for the six months ended February 28, 2001. In addition to this, Heritage issued \$2.1 million for notes payable on non-compete agreements in connection with certain acquisitions.

Under its Partnership Agreement, Heritage will distribute to its partners, 45 days after the end of each fiscal quarter, an amount equal to all of its Available Cash for such quarter. Available Cash generally means, with respect to any quarter of Heritage, all cash on hand at the end of such quarter less the amount of cash reserves that are necessary or appropriate in the reasonable discretion of the General Partner to (i) provide for the proper conduct of the Heritage's business, (ii) comply with applicable law or any Heritage debt instrument or other agreement, or (iii) provide funds for distributions to Unitholders and the General Partner in respect of any one or more of the next four quarters. Available Cash is more fully defined in the Amended and Restated Agreement of Limited Partnership of Heritage Propane Partners, L.P. previously filed as an exhibit. Distributions of Available Cash to the holders of the Subordinated Units and the Class B Subordinated Units are subject to the prior rights of the holders of the Common Units to receive the Minimum Quarterly Distributions of \$.50 per unit for each quarter during the subordination period, and to receive any arrearages in the distribution of Minimum Quarterly Distributions on the Common Units for prior quarters during the subordination period. The subordination period will not end earlier than June 1, 2001 ("Subordination Period"). Heritage's commitment to its unitholders is to distribute the increase in its cash flow while maintaining prudent reserves for operations. Heritage raised the quarterly distribution paid on October 16,

2000 for the fourth quarter ended August 31, 2000, to \$.575 per unit (or \$2.30 annually) from the quarterly distribution of \$.5625 (or \$2.25 annually) and again for the distribution paid on January 15, 2001, to \$.5875 per unit (or \$2.35 annually). On March 22, 2001, Heritage declared their third increased quarterly distribution this fiscal year of \$.60 per unit (or \$2.40 annually) for the second quarter ended February 28, 2001, to Unitholders of record as of April 2, 2001 and payable April 16, 2001. In the case of each quarterly distribution increase, the decision resulted from a review of Predecessor Heritage's and Heritage's past financial performance, and current projections for available cash based on the first quarter's performance and future expectations for Heritage. The current distribution level includes incentive distributions payable to the General Partner to the extent the quarterly distribution exceeds \$.55 per unit (\$2.20 annually).

The assets utilized in the propane business do not typically require lengthy manufacturing process time nor complicated, high technology components. Accordingly, Heritage does not have any significant financial commitments for capital expenditures. In addition, Heritage has not experienced any significant increases attributable to inflation in the cost of these assets or in its operations.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Heritage has very little cash flow exposure due to rate changes for long-term debt obligations. Predecessor Heritage primarily entered into debt obligations to support general corporate purposes including capital expenditures and working capital needs. Predecessor Heritage's long-term debt instruments were typically issued at fixed interest rates. When these debt obligations mature, Heritage may refinance all or a portion of such debt at then-existing market interest rates which may be more or less than the interest rates on the maturing debt.

Commodity price risk arises from the risk of price changes in the propane inventory that Heritage buys and sells. The market price of propane is often subject to volatile changes as a result of supply or other market conditions over which Heritage will have no control. In the past, price changes have generally been passed along to Predecessor Heritage's customers to maintain gross margins, mitigating the commodity price risk. In order to help ensure adequate supply sources are available to Heritage during periods of high demand, Predecessor Heritage in the past purchased significant volumes of propane during periods of low demand, which generally occur during the summer months, at the then current market price, for storage both at its service centers and in major storage facilities. Heritage also attempts to minimize the effects of market price fluctuations for its propane supply through its trading activities and by entering into certain financial contracts. Heritage's trading activities include both purchases and sales of product supply. Trading activity is recorded at fair value on Heritage's balance sheet, with the changes in fair value included in earnings.

The financial contracts entered into by Heritage are often referred to as swap instruments. The swap instruments are a contractual agreement to exchange obligations of money between the buyer and seller of the instruments as propane volumes during the pricing period are purchased. The swaps are tied to a fixed price bid by the buyer and a floating price determination for the seller based on certain indices at the end of the relevant trading period. Heritage enters into these swap instruments to hedge the projected propane volumes to be purchased during each of the one-month periods during the projected heating season.

At February 28, 2001, Heritage had outstanding propane hedges ("swap agreements") for a total of 55 million gallons of propane at a weighted average price of \$.5547 per gallon. The fair value of the swap agreement is the amount at which they could be settled, based on quoted market prices. These instruments had a fair value of \$571 as of February 28, 2001, which was recorded as other assets on the balance sheet through other comprehensive income, exclusive of \$22 of minority interest. Heritage continues to monitor propane prices and may enter into additional propane hedges in the future. Inherent in the portfolio from the trading and hedging activities is certain business risks, including market risk and credit risk. Market risk is the risk that the value of the portfolio will change, either favorably or unfavorably, in response to changing market conditions. Credit risk is the risk of loss from nonperformance by suppliers, customers, or financial counterparties to a contract. Heritage takes an active role in managing and controlling market and credit risk and has established control procedures, which are reviewed on an ongoing basis. Heritage monitors market risk through a variety of techniques, including routine reporting to senior management. Heritage attempts to minimize credit risk exposure through credit policies and periodic monitoring procedures.

TRADING ACTIVITIES

Heritage trades financial instruments for its own account through Heritage Energy Resources ("Resources"). Financial instruments utilized in connection with trading activities are accounted for using the mark-to-market method. Under the mark-to-market method of accounting, forwards, swaps, options and storage contracts are reflected at fair value, and are shown in the consolidated balance sheet as assets and liabilities from trading activities. Unrealized gains and losses from the financial contracts and the impact of price movements are recognized in the income statement as other income (expense). Changes in the assets and liabilities from trading activity result primarily from changes in the market prices, newly originated transactions and the timing of settlement. Resources attempts to balance its contractual portfolio in terms of notional amounts and timing of performance and delivery obligations. However, net unbalanced positions can exist or are established based on an assessment of anticipated market movements.

Notional Amounts and Terms -

The notional amounts and terms of these financial instruments as of February 28, 2001 include fixed price payor for 425,000 barrels of propane and butane, and fixed price receiver of 559,200 barrels of propane and butane. Notional amounts reflect the volume of the transactions, but do not represent the amounts exchanged by the parties to the financial instruments. Accordingly, notional amounts do not accurately measure Heritage's exposure to market or credit risks.

Fair Value -

The fair value of the financial instruments related to trading activities as of February 28, 2001, were assets of \$490 and liabilities of \$702. The unrealized gain/(loss) related to trading activities for the three months and six months ended February 28, 2001, was \$(40) and \$150, respectively.

Market and Credit Risk -

Inherent in the resulting contractual portfolio is certain business risks, including market risk and credit risk. Market risk is the risk that the value of the portfolio will change, either favorably or unfavorably, in response to changing market conditions. Credit risk is the risk of loss from nonperformance by suppliers, customers, or financial counterparties to a contract. Heritage and Resources take active roles in managing and controlling market and credit risk and have established control procedures, which are reviewed on an ongoing basis. Heritage monitors market risk through a variety of techniques, including routine reporting to senior management. Heritage attempts to minimize credit risk exposure through credit policies and periodic monitoring procedures.

The market prices used to value these transactions reflect management's best estimate considering various factors including closing average spot prices for the current and outer months plus a differential to consider time value and storage costs.

6. General. The Existing Credit Agreement and all of the other Loan Documents are each confirmed as being in full force and effect. This Fourth Amendment, the Existing Credit Agreement and the other Loan Documents referred to herein or therein constitute the entire understanding of the parties with respect to the subject matter hereof and thereof and supersede all prior and current understandings and agreements, whether written or oral, with respect to such subject matter. The invalidity or unenforceability of any provision hereof shall not affect the validity and enforceability of any other term or provision hereof.
