Item 7.01 Regulation FD Disclosure

In connection with its offering of senior unsecured notes, Inergy, L.P. (the "Partnership") is providing the following supplemental information, which is contained in offering materials: (i) borrowings of approximately \$128.0 million under the Partnership's revolving acquisition credit facility incurred after December 31, 2007 which were primarily incurred to finance our recent acquisitions and capital expenditures made in connection with internal growth projects related to midstream assets bringing the as adjusted balance under the revolving acquisition credit facility to \$249.0 million through April 22, 2008; (ii) the repayment of seasonal working capital borrowings under the revolving credit facility of approximately \$82.5 after December 31, 2007, bringing the as adjusted balance under the revolving working capital credit facility to \$0.0 as of April 22, 2008; (iii) that despite a challenging propane operating environment throughout the winter with record high wholesale propane costs resulting in customer conservation, Adjusted EBITDA is expected to approximate \$240 million for the full fiscal year ended September 30, 2008 which represents the midpoint of the previously disclosed guidance; and (iv) a ratio of earnings to fixed charges of 3.36x for the quarter ended December 31, 2007.

This report contains forward-looking statements, which are statements that are not historical in nature. Forward-looking statements are subject to certain risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize, or any underlying assumption proves incorrect, actual results may vary materially from those anticipated, estimated or projected. Among the key factors that could cause actual results to differ materially from those referred to in the forward-looking statements are: weather conditions that vary significantly from historically normal conditions, the general level of petroleum product demand and the availability of propane supplies, the price of propane to the consumer compared to the price of alternative and competing fuels, the demand for high deliverability natural gas storage capacity in the Northeast, our ability to successfully implement our business plan, the outcome of rate decisions levied by the Federal Energy Regulatory Commission, our ability to generate available cash for distribution to unitholders, and the costs and effects of legal, regulatory and administrative proceedings against us or which may be brought against us. These and other risks and assumptions are described in Inergy's annual reports on Form 10-K and other reports that are available from the United States Securities and Exchange Commission.
