ABOUT THIS PROSPECTUS SUPPLEMENT

This document is in two parts. The first part is this prospectus supplement, which describes the specific terms of the senior notes and also adds to and updates information contained in the accompanying prospectus and the documents incorporated by reference in this prospectus supplement and the accompanying prospectus. The second part is the accompanying prospectus, which gives more general information, some of which does not apply to the senior notes. To the extent information varies between this prospectus supplement and the accompanying prospectus, you should rely on the information in this prospectus supplement.

As described in more detail below under “Where You Can Find More Information” in the accompanying prospectus, we and our parent company, Southern Union, separately file annual, quarterly and current reports. You should not rely on any information relating to Southern Union or its subsidiaries (other than the information provided separately by Panhandle) in determining whether to invest in the senior notes. The senior notes are not guaranteed by Southern Union or any of its or our subsidiaries. None of those entities has any obligation to make any capital contribution or to advance funds to us for the purpose of paying the principal of, or premium, if any, and interest on the senior notes or any other amount that may be required to be paid under the indenture or the senior notes, preventing or curing an event of default under the terms of the indenture, complying with any other obligation under the indenture or the senior notes or otherwise.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Some statements contained in or incorporated by reference into this prospectus supplement and the accompanying prospectus, including the discussion of our plans and proposals under “Summary” and “Risk Factors,” are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements constitute forward-looking statements that are based on our current expectations, estimates and projections about the industry in which we operate and our beliefs and assumptions. These forward-looking statements are not historical facts, but rather reflect our current expectations concerning future results and events. Words such as “expects,” “anticipates,” “intends,” “plans,” “believes,” “seeks,” “estimates,” variations of such words and similar expressions are intended to identify such forward-looking statements. Similarly, statements that describe our objectives, plans or goals are or may be forward-looking statements.

These statements are not guarantees of future performance and involve various risks, uncertainties and assumptions, which are difficult to predict and many of which are outside our control. Therefore, actual results, performance and achievements may differ materially from what is expressed or forecasted in such forward-looking statements. Prospective investors may review our reports filed in the future with the Securities and Exchange Commission (the Commission) for more current descriptions of developments that could cause actual results to differ materially from such forward-looking statements. However, prospective investors should not place undue reliance on forward-looking statements, which speak only as of the date of this prospectus supplement or, in the case of documents incorporated by reference, the date of those documents.

Factors that could cause actual results to differ materially from those expressed in our forward-looking statements include, but are not limited to, those described under “Risk Factors,” in this prospectus supplement as well as the risk factors discussed in our Annual Report on Form 10-K for the year ended December 31, 2008 and Quarterly Report for the quarter ended March 31, 2009, and the following:

- changes in demand for natural gas and related services by our customers, in the composition of our customer base and in the sources of natural gas available to us;
- the effects of inflation and the timing and extent of changes in the prices and overall demand for and availability of natural gas as well as electricity, oil, coal and other bulk materials and chemicals;
- adverse weather conditions, such as warmer than normal weather in our service territories, and the operational impact of disasters;
- changes in laws or regulations, third-party relations and approvals, decisions of courts, regulators and governmental bodies affecting or involving us, including deregulation initiatives and the impact of rate and tariff proceedings before the Federal Energy Regulatory Commission and various state regulatory commissions;
- the outcome of pending and future litigation;
- our ability to comply with or to challenge successfully existing or new environmental regulations;

S-1

[Table of Contents](#)

- unanticipated environmental liabilities;
- our ability to acquire new businesses and assets and integrate those operations into our existing operations, as well as our ability to expand our existing businesses and facilities;
- our ability to control costs successfully and achieve operating efficiencies, including the purchase and implementation of new technologies for achieving such efficiencies;
- the impact of factors affecting operations such as maintenance or repairs, environmental incidents, gas pipeline system constraints and relations with labor unions representing bargaining-unit employees;
- exposure to customer concentration with a significant portion of revenues realized from a relatively small number of customers and any credit risks associated with the financial position of those customers;
- changes in the ratings of our debt securities;
- changes in interest rates and other general capital markets conditions, and in our ability to continue to access the capital markets;
- acts of nature, sabotage, terrorism or other acts causing damage greater than our insurance coverage limits;
- market risks beyond our control affecting our risk management activities including market liquidity, commodity price volatility and counterparty creditworthiness; and
- other risks and unforeseen events.

In light of these risks, uncertainties and assumptions, the results reflected in our forward-looking statements contained in or incorporated by reference into this prospectus supplement and the accompanying prospectus might not occur. In addition, we could be affected by general industry and market conditions, and general economic conditions, including interest rate fluctuations, federal, state and local laws and regulations affecting the natural gas industry or the energy industry generally. Other factors that could cause actual results to differ materially from estimates and projections contained in forward-looking statements are described in the documents that are incorporated by reference.

We do not undertake any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements contained throughout this prospectus supplement.

In addition to owning us, Southern Union, through Citrus Corp., also owns a 50% interest in and operates Florida Gas Transmission Company, which has an open-access interstate pipeline system with a mainline capacity of 2.1 Bcf per day extending approximately 4,900 miles from south Texas through the Gulf Coast region to south Florida. Through Southern Union's local distribution companies, Missouri Gas Energy and New England Gas Company, Southern Union also serves more than half a million natural gas end-user customers in Missouri and Massachusetts.

[Table of Contents](#)

RISK FACTORS

An investment in our senior notes involves risk. You should read carefully the risk factors set forth below and those risks discussed in our Annual Report on Form 10-K for the year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2009, which are incorporated by reference into this prospectus supplement and the accompanying prospectus, before making a decision to invest in our senior notes. You should consider carefully the risk factors together with all of the other information included in this prospectus supplement, the accompanying prospectus and the documents we have incorporated by reference into this prospectus supplement and the accompanying prospectus before investing in our senior notes.

The indenture may restrict our ability to enter into certain transactions.

Our indenture (as defined herein) provides that a change in our federal income tax status or a change in the deemed issuer of the senior notes for federal income tax purposes may give rise to an event of default under the indenture unless we provide an opinion of counsel to the effect that the holders of the senior notes will not recognize income, gain or loss for federal income tax purposes as a result of the change and that such holders will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the change had not occurred. This

restriction may limit our ability to respond to changing business and economic conditions and engage in opportunistic transactions. See “Description of the Senior Notes—Events of Default.”

Your ability to transfer the senior notes at a time or price you desire may be limited by the absence of an active trading market, which may not develop.

The senior notes are a new issue of securities for which there is no established trading market. Although we have registered the offer and sale of the senior notes under the Securities Act, we do not intend to apply for the listing of the senior notes on any securities exchange or for the quotation of the senior notes in any automated dealer quotation system. In addition, although the underwriters have informed us that they intend to make a market in the senior notes, as permitted by applicable laws and regulations, they are not obligated to make a market in the senior notes, and they may discontinue their market making activities at any time without notice. An active market for the senior notes may not develop or, if developed, may not continue. In the absence of an active trading market, you may not be able to transfer the senior notes within the time or at the price you desire.

The senior notes will be effectively subordinated to indebtedness and other liabilities of our subsidiaries and subordinated to any future secured indebtedness to the extent of the assets securing such indebtedness.

The senior notes are not guaranteed by our subsidiaries. As a result, holders of the senior notes will be effectively subordinated to claims of third party creditors, including holders of indebtedness of our subsidiaries. Claims of those other creditors, including trade creditors, secured creditors, governmental authorities, and holders of indebtedness or guarantees issued by the subsidiaries, will generally have priority as to the assets of the subsidiaries over claims by the holders of the senior notes. As a result, rights of payment of holders of our indebtedness, including the holders of the senior notes, will be effectively subordinated to all those claims of creditors of our subsidiaries. As of March 31, 2009, our subsidiaries had total indebtedness of approximately \$815.4 million.

Holders of secured indebtedness that we may incur in the future would have claims with respect to our assets constituting collateral for such indebtedness that are prior to your claims under the senior notes. In the event of a default on such secured indebtedness or our bankruptcy, liquidation or reorganization, those assets would be available to satisfy obligations with respect to the indebtedness secured thereby before any payment could be made on the senior notes. Accordingly, any such secured indebtedness would be effectively senior to the senior notes to the extent of the value of the collateral securing the indebtedness. While the indenture governing the senior notes places certain limitations on our ability to create liens, there are significant exceptions to these limitations that will allow us to secure certain kinds of indebtedness without equally and ratably securing the senior notes. To the extent the value of the collateral is not sufficient to satisfy the secured indebtedness, the holders of that indebtedness would be entitled to share with the holders of the senior notes and the holders or other claims against us with respect to our other assets.

Our parent company is not guaranteeing the senior notes and you should not rely upon information relating to our parent company in determining whether to invest in the senior notes.

As described in more detail under “Where You Can Find More Information” in the accompanying prospectus, we and our parent company, Southern Union, separately file annual, quarterly and current reports. You should not rely on any information relating solely to Southern Union or its subsidiaries (other than the information provided separately by Panhandle) in determining whether to invest in the senior notes. The senior notes are not guaranteed by Southern Union or any of its or our

S-7

subsidiaries. None of those entities has any obligation to make any capital contribution or to advance funds to us for the purpose of paying the principal of, or premium, if any, and interest on the senior notes or any other amount that may be required to be paid under the indenture or the senior notes, preventing or curing an event of default under the terms of the indenture, complying with any other obligation under the indenture or the senior notes or otherwise.

USE OF PROCEEDS

The net proceeds to be received by us from this offering, after deducting the underwriters’ discount and our estimated expenses related to this offering, are estimated to be approximately \$. We will initially loan the net proceeds of this offering (the “Advanced Amounts”) to our parent company, Southern Union, which will be used by Southern Union to repay a portion of its outstanding indebtedness under the Fifth Amended and Restated Revolving Credit Agreement, between Southern Union and the banks named therein, dated as of June 20, 2008. Loans under our parent’s revolving credit agreement mature on May 28, 2010, and as of May 18, 2009, such loans had a weighted average interest rate of 0.97% and an outstanding balance of approximately \$160 million. Such Advanced Amounts, which subsequently will be repaid by Southern Union to us upon our demand, will be used by us (i) to repay our \$60.6 million of 6.50% senior notes due July 15, 2009, (ii) to fund our capital expenditures, including those relating to our previously announced projects, and (iii) for our general corporate purposes.

Affiliates of the underwriters participating in this offering are lenders under our parent’s revolving credit agreement and therefore will receive proceeds from this offering. For more information, please read “Underwriting — Other Relationships” in this prospectus supplement.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth the consolidated ratio of earnings to fixed charges on an historical basis for the three months ended March 31, 2009 and for each of the years ended December 31, 2008, 2007, 2006, 2005 and 2004.

	Three Months Ended	Year Ended December 31,				
	March 31, 2009	2008	2007	2006	2005	2004
Ratio of Earnings to Fixed Charges:	3.5	3.1	3.3	4.1	3.6	3.4

Earnings included in the calculation of the ratio of earnings to fixed charges represent income before income taxes, excluding the effect of capitalized interest and income from unconsolidated equity investees, plus fixed charges and distributed income from unconsolidated equity investees.

The ratio of earnings to fixed charges for the three months ended March 31, 2009 reflects the seasonal nature of our business. Demand for gas transmission on our pipeline systems and throughput are highest, and a higher portion of our revenues are earned, during the colder period in the first and fourth quarters. Accordingly, these results are not indicative of our full year or future performance.

DESCRIPTION OF THE SENIOR NOTES

General

The senior notes will be issued under the indenture between PEPL and The Bank of New York Mellon Trust Company, N.A. (as successor to NBD Bank and Bank One Trust Company, National Association), as trustee, dated as of March 29, 1999 (the "base indenture"), as amended and supplemented by a seventh supplemental indenture, to be dated June , 2009, establishing the senior notes. The base indenture, as so amended and supplemented by the seventh supplemental indenture with respect to the senior notes, is referred to in this prospectus supplement as the "indenture." Because this section is a summary, it does not describe every aspect of the indenture. This summary is subject to, and qualified in its entirety by reference to, all the provisions of the indenture, including definitions of certain terms. You may obtain a copy of the indenture by requesting one from us or the trustee.

The senior notes will be initially limited to \$ aggregate principal amount, but we may "reopen" the series of senior notes and issue additional senior notes at any time. See "—Issuance of Additional Notes" below. There is no limit on the aggregate principal amount of debt securities that may be issued under the indenture and we may issue other debt securities under the indenture, from time to time, in one or more series.

The senior notes will be issued in the form of one or more permanent global certificates, in registered form, without coupons, in denominations of \$1,000 and integral multiples thereof as described under "—Global Notes and Book-Entry System." The "global notes" (as defined below) will be registered in the name of a nominee of DTC. Each global note (and any senior note issued in exchange therefor) will be subject to certain restrictions on transfer set forth therein as described under "—Global Notes and Book-Entry System." Except as set forth herein under "—Global Notes and Book-Entry System," owners of beneficial interests in a global note will not be entitled to have senior notes registered in their names, will not receive or be entitled to receive physical delivery of any senior note and will not be considered the registered holder of any senior note under the indenture.

The senior notes will not have the benefit of a sinking fund.

You may find the definitions of some terms used in this description under the subheading “—Certain Definitions.”

Ranking

As of March 31, 2009, we had outstanding approximately \$1.93 billion aggregate principal amount of total indebtedness, including approximately \$815.4 million of indebtedness of one of our subsidiaries. All of this subsidiary debt is guaranteed by PEPL and approximately \$360.4 million of this indebtedness is guaranteed by one of our affiliates, CrossCountry Citrus, LLC. None of this indebtedness will be senior to the senior notes (although the senior notes are structurally subordinated to approximately \$815.4 million of this indebtedness) and the senior notes will not be senior to such indebtedness. The senior notes will be our unsecured obligations. The senior notes will rank equally with all of our other unsecured and unsubordinated indebtedness from time to time outstanding and will rank senior to all of our subordinated debt. We currently have no subordinated debt outstanding.

Issuance of Additional Notes

We may, without the consent of the holders of senior notes, increase the principal amount of the senior notes by issuing additional senior notes in the future on the same terms and conditions, except for any differences in the issue price and interest accrued prior to the issue date of the additional senior notes. The senior notes offered by this prospectus supplement and any additional senior notes of the same series would rank equally and ratably and would be treated as a single class for all purposes under the indenture. The indenture provides that no additional senior notes of a series may be issued if any event of default has occurred with respect to that series of senior notes.

Payment and Maturity

The senior notes will mature on June 1, 2019. The senior notes will bear interest at the rate set forth on the cover page of this prospectus supplement. We will pay interest on the senior notes on June 1 and December 1 of each year, commencing December 1, 2009, to the registered holders thereof on the preceding May 15 and November 15, respectively. Payment of any interest due on the senior notes will be made only to the persons in whose names the senior notes are registered at the close of business on the record date for the applicable interest payment. In any case where any interest payment date, redemption date, repurchase date or maturity of any senior note will not be a Business Day (as hereinafter defined) at any place of payment, then payment of interest or principal (and premium, if any) need not be made on that date, but may be made on the next succeeding

Business Day (unless that day would fall in a new calendar year in which case such payment may be made on the next preceding Business Day) at such place of payment with the same force and effect as if made on the interest payment date, redemption date, repurchase date or at maturity; and no interest will accrue on the amount so payable for the period from and after such interest payment date, redemption date, repurchase date or maturity, as the case may be, to such Business Day.

All outstanding senior notes will be exchangeable, transfers of senior notes will be registrable, and principal of and interest on all senior notes will be payable, at the corporate trust office of the trustee at The Bank of New York Mellon Trust Company, N.A., provided that payment of interest may, at our option, be made by check mailed to the address of the person entitled thereto as it appears in the security register or by transfer to an account maintained by the payee with a bank located in the United States. Neither we nor the trustee will impose any service charge for any transfer or exchange of a senior note; however, we may ask you to pay any taxes or other governmental charges in connection with a transfer or exchange of senior notes.

Optional Redemption

The senior notes will be redeemable as a whole or in part, at our option at any time and from time to time, at a redemption price equal to the greater of (i) 100% of the principal amount of such senior notes or (ii) the sum of the present values of the remaining scheduled payments of principal and interest thereon (exclusive of interest accrued to the date of redemption) discounted to the redemption date on a semiannual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus \quad basis points, plus, in either case, accrued and unpaid interest thereon to the date of redemption.

“Treasury Rate” means, with respect to any redemption date, the rate per annum equal to the semiannual equivalent yield to maturity or interpolated (on a day count basis) of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date.

“Comparable Treasury Issue” means the United States Treasury security or securities selected by an Independent Investment Banker as having an actual or interpolated maturity comparable to the remaining term of the senior notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of a comparable maturity to the remaining term of such senior notes.

“Independent Investment Banker” means any of Wachovia Capital Markets, LLC and RBC Capital Markets Corporation (and their respective successors) or, if no such firm is willing and able to select the applicable Comparable Treasury Issue or perform the other functions of the Independent Investment Banker provided in the Indenture, an independent investment banking institution of national standing appointed by us and reasonably acceptable to the Trustee.

“Comparable Treasury Price” means, with respect to any redemption date, (A) the average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotations, or (B) if the trustee obtains fewer than four such Reference Treasury Dealer Quotations, the average of all such quotations.

“Reference Treasury Dealer Quotations” means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the trustee, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the trustee by such Reference Treasury Dealer at 3:30 p.m., New York time, on the third business day preceding such redemption date.

“Reference Treasury Dealer” means a Primary Treasury Dealer (as defined below) selected by Wachovia Capital Markets, LLC and RBC Capital Markets Corporation (in each case, or its affiliates and its successors); if any of the Reference Treasury Dealers resign, the respective successor dealer shall be (1) a primary U.S. Government Securities dealer in the City of New York (a “Primary Treasury Dealer”), and (2) any other Primary Treasury Dealer selected by the Company.

Notice of any redemption will be mailed at least 30 days but not more than 60 days before the redemption date to each holder of senior notes to be redeemed.

Unless the Company defaults in payment of the redemption price, on and after the redemption date interest will cease to accrue on the senior notes or portions thereof called for redemption.

We may purchase senior notes in the open market, by tender or otherwise. If we purchase senior notes, we may hold, resell or surrender them to the trustee for cancellation. If applicable, we will comply with the requirements of Rule 14e-1 under

S-13

the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and other securities laws and regulations in connection with any such purchase.

No Mandatory Redemption

The senior notes will not be subject to mandatory redemption or have the benefit of a sinking fund.

Certain Covenants

Limitation on Restricted Payments

The indenture provides that, so long as any of the senior notes are outstanding and during any time that such senior notes are rated below Baa3 (or an equivalent rating) by Moody’s and below BBB- (or an equivalent rating) by Standard & Poor’s, the provisions described in this “Limitation on Restricted Payments” will apply and we will not, and will not permit any of our Restricted Subsidiaries, directly or indirectly, to:

- (1) declare or pay any dividend or make any distribution on our Capital Stock to the direct or indirect holders of our Capital Stock (except dividends or distributions payable solely in our Non-Convertible Capital Stock or in options, warrants or other rights to purchase such Non-Convertible Capital Stock and except dividends or distributions payable to us or a Subsidiary of Panhandle);
- (2) purchase, redeem or otherwise acquire or retire for value any equity interest in us; or
- (3) make any Loan to Southern Union or any of its affiliates that is not our Subsidiary;

(Any such dividend, distribution, purchase, redemption, other acquisition, retirement or loan described in (1) through (3) above being hereinafter referred to as a “Restricted Payment”), unless at the time we or our Restricted Subsidiary makes such Restricted Payment and after giving effect thereto:

- (1) no Event of Default, and no event that with the lapse of time or the giving of notice or both would constitute an Event of Default, shall have occurred and be continuing (or would result therefrom);
- (2) our Fixed Charge Coverage Ratio is greater than or equal to 2.2; and
- (3) our Leverage Ratio is less than or equal to 55%.

Notwithstanding the foregoing, we or any of our Restricted Subsidiaries may declare, make or pay any Restricted Payment, if at the time we or our Restricted Subsidiary makes the Restricted Payment and after giving effect thereto:

- (1) no Event of Default, and no event that with the lapse of time or the giving of notice or both would constitute an Event of Default, shall have occurred and be continuing (or would result therefrom); and
- (2) the aggregate amount of the Restricted Payment and all other Restricted Payments made since the initial date of issuance of the senior notes would not exceed the sum of:
 - (a) \$175 million;
 - (b) 75% of Adjusted Consolidated Net Income accumulated since the initial date of issuance of the senior notes to the end of the most recent fiscal quarter ending at least 45 days prior to the date of the Restricted Payment; and
 - (c) the aggregate net cash proceeds received by us after the date of issuance of the senior notes from capital contributions or the issuance of our Capital Stock to a person who is not our Subsidiary, or from the issuance to such a person of options, warrants or other rights to acquire our Capital Stock.

None of the foregoing provisions will prohibit:

- (1) dividends or other distributions paid in respect of any class of Capital Stock issued by us in connection with the acquisition of any business or assets by us or a Restricted Subsidiary where the dividends or other distributions with respect to such Capital Stock are payable solely from the net earnings of the business or assets;

S-14

[Table of Contents](#)

(2) any purchase or redemption of our Capital Stock made by exchange for, or out of the proceeds of the substantially concurrent sale of, our Non-Convertible Capital Stock; or

(3) dividends paid within 60 days after the date of declaration if at the date of declaration the dividends would have complied with this covenant.

Limitation on Liens

The indenture provides that we will not, nor will we permit any Restricted Subsidiary to, create, assume, incur or suffer to exist any Lien upon any Principal Property, whether owned or leased on the date of the indenture or thereafter acquired, to secure any Debt of ours or any other Person (other than the senior notes), without in any such case making effective provision whereby all of the senior notes outstanding shall be secured equally and ratably with, or prior to, such Debt so long as such Debt shall be so secured.

There is excluded from this restriction:

(1) any Lien upon any property or assets of us or any Restricted Subsidiary in existence on the date of the indenture or created pursuant to an “after-acquired property” clause or similar term in existence on the date of the indenture or any mortgage, pledge agreement, security agreement or other similar instrument in existence on the date of the indenture;

(2) any Lien upon any property or assets created at the time of acquisition of the property or assets by us or any Restricted Subsidiary or within 18 months after that time to secure all or a portion of the purchase price for the property or assets or Debt incurred to finance the purchase price, whether such Debt was incurred prior to, at the time of or within 18 months of the acquisition;

(3) any Lien upon any property or assets existing thereon at the time of the acquisition thereof by us or any Restricted Subsidiary (whether or not the obligations secured thereby are assumed by us or any Restricted Subsidiary);

(4) any Lien upon any property or assets of a Person existing thereon at the time the Person becomes a Restricted Subsidiary by acquisition, merger or otherwise (whether or not the Lien was created in anticipation of the acquisition);

(5) any Lien securing obligations assumed by us or any Restricted Subsidiary existing at the time of the acquisition by us or any Restricted Subsidiary of the property or assets subject to the Lien or at the time of the acquisition of the Person which owns the property or assets;

(6) any Lien on property to secure all or part of the cost of construction or improvements thereon or to secure Debt incurred prior to, at the time of, or within 18 months after completion of the construction or making of the improvements, to provide funds for any such purpose;

(7) any Lien in favor of us or any Restricted Subsidiary;

(8) any Lien created or assumed by us or any Restricted Subsidiary in connection with the issuance of Debt the interest on which is excludable from gross income of the holder of such Debt pursuant to the Internal Revenue Code of 1986, as amended (the “Code”), or any successor statute, for the purpose of financing, in whole or in part, the acquisition or construction of property or assets to be used by us or any Subsidiary;

(9) any Lien upon property or assets of any foreign Restricted Subsidiary to secure Debt of that foreign Restricted Subsidiary;

(10) Permitted Liens;

(11) any Lien created by any program providing for the financing, sale or other disposition of trade or other receivables classified as current assets in accordance with United States generally accepted accounting principles entered into by us or by our Subsidiary, provided that the program is on terms customary for similar transactions, or any document executed by any of our Subsidiaries in connection therewith, provided that the Lien is limited to the trade or other receivables in respect of which the program is created or exists, and the proceeds thereof;

(12) any Lien upon any additions, improvements, replacements, repairs, fixtures, appurtenances or component parts thereof attaching to or required to be attached to property or assets pursuant to the terms of any mortgage, pledge agreement, security agreement or other similar instrument, creating a Lien upon the property or assets permitted by clauses (1) through (11), inclusive, above; or

[Table of Contents](#)

(13) any extension, renewal, refinancing, refunding or replacement (or successive extensions, renewals, refinancing, refundings or replacements) of any Lien, in whole or in part, that is referred to in clauses (1) through (6), inclusive, above (and Liens related thereto referred to in clause (12)), or of any Debt secured thereby; provided, however, that the principal amount of Debt secured thereby may not exceed the greater of the principal amount of Debt so secured at the time of such extension, renewal, refinancing, refunding or replacement and the original principal amount of Debt so secured (plus in each case the aggregate amount of premiums, other payments, costs and expenses paid or incurred in connection with such extension, renewal, refinancing, refunding or replacement); provided further, however, that such extension, renewal, refinancing, refunding or replacement must be limited to all or a part of the property (including improvements, alterations and repairs on the property) subject to the encumbrance so extended, renewed, refinanced, refunded or replaced (plus improvements, alterations and repairs on the property).

Notwithstanding the foregoing, under the indenture, we may, and may permit any Restricted Subsidiary to, create, assume, incur, or suffer to exist any Lien upon any Principal Property to secure Debt of ours or any other Person (other than the senior notes) that is not otherwise excepted by clauses (1) through (8), inclusive, above without securing the senior notes issued under the indenture, provided that the aggregate principal amount of all Debt then outstanding secured by such Lien and all similar Liens, together with all net sale proceeds from Sale-Leaseback Transactions (excluding Sale-Leaseback

Transactions permitted by clauses (1) through (4), inclusive, of the first paragraph of the restriction on sale-leasebacks covenant described below) does not exceed the greater of 15% of Consolidated Net Tangible Assets or 15% of Total Capital.

Restriction on Sale-Leasebacks

The indenture provides that we will not, nor will we permit any Restricted Subsidiary to, engage in a Sale-Leaseback Transaction, unless:

- (1) the Sale-Leaseback Transaction occurs within 18 months from the date of acquisition of the Principal Property subject thereto or the date of the completion of construction or commencement of full operations on the Principal Property, whichever is later;
- (2) the Sale-Leaseback Transaction involves a lease for a period, including renewals, of not more than four years;
- (3) we or our Restricted Subsidiary would be entitled to incur Debt secured by a Lien on the Principal Property subject thereto (pursuant to clauses (1) through (13), inclusive, of the first paragraph of the limitation on liens covenant described above) in a principal amount equal to or exceeding the net sale proceeds from the Sale-Leaseback Transaction without securing the senior notes; or
- (4) we or our Restricted Subsidiary, within an 18-month period after the Sale-Leaseback Transaction, apply or cause to be applied an amount not less than the net sale proceeds from the Sale-Leaseback Transaction to (A) the repayment, redemption or retirement of our Funded Debt or that of any of our Subsidiaries, or (B) investment in another Principal Property or in a Subsidiary of ours which owns another Principal Property.

Notwithstanding the foregoing, under the indenture, we may, and may permit any Restricted Subsidiary to, effect any Sale-Leaseback Transaction that is not otherwise excepted by clauses (1) through (4), inclusive, of the above paragraph, provided that the net sale proceeds from the Sale-Leaseback Transaction, together with the aggregate principal amount of outstanding Debt (other than the senior notes) secured by Liens upon Principal Properties not excepted by clauses (1) through (13), inclusive, of the first paragraph of the limitation on liens covenant described above, do not exceed the greater of 15% of the Consolidated Net Tangible Assets or 15% of Total Capital.

Financial Information

Whether or not required by the Commission's rules and regulations, so long as any senior notes are outstanding, we will furnish to the holders of senior notes, within the time periods specified in the Commission's rules and regulations:

- (1) all quarterly and annual reports that would be required to be filed with the Commission on Forms 10-Q and 10-K if we were required to file such reports; and
- (2) all current reports that would be required to be filed with the Commission on Form 8-K if we were required to file such reports.

We will be required to prepare all such reports in all material respects in accordance with all applicable rules and regulations. We will include in each annual report on Form 10-K a report on our consolidated financial statements by our

independent registered public accounting firm. In addition, we will file a copy of each of the reports referred to in clauses (1) and (2) above with the Commission for public availability within the time periods specified in the applicable rules and regulations (unless the Commission will not accept such a filing) and make that information available to securities analysts and prospective investors upon request.

We are currently required under the Exchange Act to file reports with the Commission. If we are no longer subject to the periodic reporting requirements of the Exchange Act for any reason, we will nevertheless continue filing the reports specified in the preceding paragraphs with the Commission within the time periods specified above unless the Commission will not accept such a filing. We will agree not to take any action for the purpose of causing the Commission not to accept any such filings. If, notwithstanding the foregoing, the Commission will not accept our filings for any reason, we will post the reports on our website within the time periods that would apply if we were required to file those reports with the Commission.

In addition, we will agree that, for so long as any senior notes remain outstanding, at any time we are not required to file those reports with the Commission, we will furnish at our cost to the holders and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act.

Consolidation, Merger and Sale of Assets

Without the consent of the holders of any of the outstanding senior notes, we may consolidate with or merge into, or convey, transfer or lease our assets substantially as an entirety to, any Person which is a corporation, limited liability company, partnership or trust organized and validly existing under the laws of the United States of America, any state or the District of Columbia, provided that:

- (1) any successor Person assumes our obligations on the senior notes and under the indenture;
- (2) after giving effect to the transaction no Event of Default (as defined below), and no event which, after notice or lapse of time, would become an Event of Default, shall have occurred and be continuing; and
- (3) that other specified conditions are met.

Events of Default

Any one of the following events constitutes an "Event of Default" under the indenture with respect to the senior notes:

- (1) our failure to pay the principal of, or premium, if any, on any senior note at its maturity;

- (2) our failure to pay any interest on any senior note when it becomes due and payable and continuance of such default for a period of 60 days;
- (3) our failure to perform, or breach of, any term, covenant or warranty contained in the indenture with respect to the senior notes for a period of 90 days upon giving written notice as provided in the indenture;
- (4) the occurrence of certain events of our bankruptcy, insolvency or reorganization; or
- (5) as a result of any action taken by us or our direct or indirect equity holders, there is a change in our federal income tax status or a change in the deemed issuer of the indebtedness for federal income tax purposes, unless (i) holders of more than 50% in principal amount of the senior notes consent to such change or (ii) (a) we certify to the trustee that we have received a ruling from the IRS or (b) we deliver to the trustee an opinion of nationally recognized independent counsel reasonably acceptable in form and substance to the trustee, in either case to the effect that the holders of the senior notes will not recognize income, gain or loss for federal income tax purposes as a result of the change and that such holders will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the change had not occurred.

If an Event of Default with respect to the senior notes occurs and is continuing, either the trustee or the holders of at least 33% in aggregate principal amount of the outstanding senior notes by notice as provided in the indenture may declare the principal amount of all the senior notes to be due and payable immediately. At any time after a declaration of acceleration with respect to the senior notes has been made, but before a judgment or decree for payment of money has been obtained by the trustee, the holders of a majority in aggregate principal amount of the outstanding senior notes, under certain circumstances, may rescind and annul such acceleration.

S-17

[Table of Contents](#)

The indenture provides that, subject to the duty of the trustee during default to act with the required standard of care, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request or direction of any of the holders, unless such holders have offered to the trustee reasonable indemnity. Subject to such provisions for the indemnification of the trustee, the holders of a majority in aggregate principal amount of the outstanding senior notes have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust or power conferred on the trustee, with respect to the senior notes; provided, however, that the trustee shall not be obligated to take any action unduly prejudicial to holders not joining in such direction or involving the trustee in personal liability.

The holders of a majority in aggregate principal amount of the outstanding senior notes may, on behalf of all holders of senior notes, waive any past default under the indenture with respect to any such senior notes, except a default:

- (1) in the payment of principal of, or premium, if any, or any interest on any senior note; or
- (2) in respect of a covenant or provision of the indenture which cannot be modified or amended without the consent of the holder of each outstanding senior note affected.

We will be required to furnish to the trustee annually a statement as to the performance of our obligations under the indenture and as to any default in our performance.

Legal and Covenant Defeasance

The indenture provides that we will be discharged from any and all obligations in respect of the outstanding senior notes (excluding, however, certain obligations, such as the obligation to register the transfer or exchange of such outstanding senior notes, to replace stolen, lost, mutilated or destroyed certificates, and to maintain paying agencies) on the 123rd day following the deposit referred to in the following clause (1), subject to the following conditions:

- (1) the irrevocable deposit, in trust, of cash or U.S. Government Obligations (or a combination thereof) which through the payment of interest and principal thereof in accordance with their terms will provide cash in an amount sufficient to pay the principal and interest and premium, if any, on the outstanding senior notes and any mandatory sinking fund payments, in each case, on the stated maturity of such payments in accordance with the terms of the indenture and the outstanding senior notes or on any redemption date established pursuant to clause (3) below;
- (2) the trustee's receipt of an opinion of counsel based on the fact that (A) we have received from, or there has been published by, the IRS a ruling, or (B) since the date of the indenture, there has been a change in the applicable federal income tax law, in either case, to the effect that, and confirming that, the holders of the senior notes will not recognize income, gain or loss for federal income tax purposes as a result of such deposit and defeasance and will be subject to federal income tax on the same amount and in the same manner and at the same times, as would have been the case if such deposit and defeasance had not occurred;
- (3) if any senior notes are to be redeemed prior to stated maturity, notice of the redemption shall have been duly given pursuant to the indenture or provision therefor satisfactory to the trustee shall have been made;
- (4) no default or Event of Default shall have occurred and be continuing on the date of such deposit; and
- (5) our delivery to the trustee of an officers' certificate and an opinion of counsel, each stating that the conditions precedent under the indenture have been complied with.

Under the indenture, we also may discharge our obligations referred to above under "—Certain Covenants—Limitation on Restricted Payments," "—Certain Covenants—Limitation on Liens," "—Certain Covenants—Restriction on Sale-Leasebacks," and below under "—Consolidation, Merger and Sale of Assets," as well as certain of our obligations relating to reporting obligations under the indenture, in respect of the senior notes on the 123rd day following the deposit referred to in clause (1) in the immediately preceding paragraph, subject to satisfaction of the conditions described in clauses (1), (3), (4) and (5) in the immediately preceding paragraph with respect to the senior notes and the delivery of an opinion of counsel confirming that the holders of the senior notes will not recognize income, gain or loss for federal income tax purposes as a result of such deposit and covenant defeasance and will be subject to federal

Modification and Waiver

We and the trustee may make modifications and amendments of the indenture that relate to the senior notes with the consent of the holders of a majority in aggregate principal amount of the outstanding senior notes, provided, however, that no such modification or amendment may, without consent of the holder of each outstanding senior note affected thereby:

- (1) change the stated maturity of the principal of, or any installment of principal of or interest on, any senior note;
- (2) reduce the principal amount of, or premium or interest on, any senior note;
- (3) change the coin or currency in which any senior note or any premium or interest thereon is payable;
- (4) reduce the percentage in principal amount of outstanding senior notes, the consent of whose holders is required for modification or amendment of the indenture or for waiver of compliance with certain provisions of the indenture or for waiver of certain defaults;
- (5) change our obligation to maintain an office or agency for payment as specified in the indenture; or
- (6) modify any of the above provisions.

No Guarantees

The senior notes are not guaranteed by our parent company, Southern Union, or any of its or our subsidiaries. None of those entities has any obligation to make any capital contribution or distributions to PEPL for the purpose of paying the principal of, or premium, if any, and interest on the senior notes or any other amount that may be required to be paid under the indenture or the senior notes, preventing or curing an event of default under the terms of the indenture, complying with any other obligation under the indenture or the senior notes or otherwise.

Governing Law

The indenture is, and the senior notes will be, governed by, and construed in accordance with, the laws of the State of New York.

Regarding the Trustee

We and certain of our affiliates from time to time borrow money from, and maintain deposit accounts and conduct certain banking transactions with, the trustee or its affiliates in the ordinary course of business.

Global Notes and Book-Entry System

The senior notes will be in book-entry form and will be represented by one or more permanent global certificates in fully registered form without interest coupons. The senior notes will be issued in denominations of \$1,000 and integral multiples thereof (*global notes*) and will be deposited with the trustee as custodian for DTC and registered in the name of Cede & Co. or another nominee designated by DTC.

Beneficial interests in the global notes may not be exchanged for certificated notes (as defined below) except in the circumstances described below.

Holders that are not DTC participants but desire to purchase, sell or otherwise transfer ownership of, or other interests in, senior notes may do so only through DTC participants. In addition, holders will receive all distributions of principal and interest from the trustee through the DTC participants. Under the rules, regulations and procedures creating and affecting DTC and its operation, DTC is required to make book-entry transfers of the senior notes among DTC participants on whose behalf it acts and to receive and transmit distributions of principal of, and interest on, the senior notes.

Distributions by DTC participants to holders will be the responsibility of such DTC participants and will be made in accordance with customary industry practices. Accordingly, although holders will not have possession of the senior notes, the rules of DTC provide a mechanism by which participants will receive payments and will be able to transfer their interests. Although the DTC participants are expected to convey the rights represented by their interests in any global security to the related holders, because DTC can only act on behalf of DTC participants, the ability of holders to pledge the senior notes to

[Table of Contents](#)

persons or entities that are not DTC participants or to otherwise act with respect to such senior notes, may be limited due to the lack of physical certificates for such senior notes.

DTC has advised us that its current practice, upon receipt of any payment in respect of the senior notes (including principal and interest), is to credit the accounts of the relevant DTC participants with the payment on the payment date unless DTC has reason to believe it will not receive payment on that payment date. Each relevant DTC participant is credited with an amount proportionate to its beneficial ownership of an interest in the principal amount of the senior notes as shown on the records of DTC. Payments by DTC participants to the beneficial owners of the senior notes will be governed by standing instructions and customary practices and will be the responsibility of DTC participants and will not be the responsibility of DTC, the trustee or us. Neither we

nor the trustee will be liable for any delay by DTC or any of its participants in identifying the beneficial owners of the senior notes, and we and the trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Panhandle, the trustee or any other agent of Panhandle or the trustee will not be responsible or liable for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the senior notes or for supervising or reviewing any records relating to such beneficial ownership interests. Since Cede & Co., as nominee of DTC, will be the only “holder,” beneficial owners will not be recognized by the trustee as holders, as that term is used in the indenture, and beneficial owners will be permitted to exercise the rights of holders only indirectly through DTC and DTC participants. DTC has advised us that it will take any action permitted to be taken by a holder under the indenture only at the direction of one or more DTC participants to whose accounts with DTC the related senior notes are credited.

Certificated Notes. We will issue physical certificates (*certificated notes*) to holders of beneficial interests in a global note, or their nominees, if:

- DTC notifies us that it is unwilling or unable to continue as depository or if at any time DTC, or any successor depository, ceases to be a “clearing agency” under the Exchange Act and, in each case, we are unable to locate a qualified successor within 90 days;
- an event of default occurs under the indenture; or
- we decide in our sole discretion to terminate the book-entry system through DTC.

In such event, the trustee will notify all holders through DTC participants of the availability of such certificated notes. Upon surrender by DTC of the definitive global note representing the series of senior notes and receipt of instructions for re-registration, the trustee will reissue the senior notes in certificated form to holders or their nominees.

Clearing System. DTC has advised us that it is:

- a limited purpose trust company organized under the laws of the State of New York;
- a member of the Federal Reserve System;
- a “clearing corporation” within the meaning of the New York Uniform Commercial Code; and
- a “clearing agency” registered pursuant to Section 17A of the Exchange Act.

DTC was created to hold securities for its participants and to facilitate the clearance and settlement of securities transactions between its participants through electronic book-entries, eliminating the need for physical movement of certificates. DTC participants include securities brokers and dealers, banks, trust companies, clearing corporations and others, some of whom own DTC. Access to DTC’s book-entry system is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly.

TAXATION

The following discussion is a summary of the material U.S. federal income tax consequences relating to the ownership and disposition of the senior notes to a purchaser of the senior notes that purchases the senior notes in the offering at the price set forth on the cover page of this prospectus supplement, but does not purport to be a complete analysis of all potential tax effects. This summary is based on the Code, administrative pronouncements, judicial decisions and final, temporary and proposed Treasury regulations and interpretations of the foregoing, changes to any of which subsequent to the date of this prospectus supplement may affect the tax consequences described herein, possibly with retroactive effect. This summary discusses senior notes held as capital assets within the meaning of Section 1221 of the Code. It does not discuss all of the tax consequences that may be relevant to a holder in light of the holder’s particular circumstances or to holders subject to special rules, such as certain banks, financial institutions, regulated investment companies, real estate investment trusts, insurance companies, dealers in securities or foreign currencies, partnerships, U.S. Holders (as defined below) whose functional currency is not the U.S. dollar, persons holding senior notes as part of a hedge, straddle or other integrated transaction, or persons who have ceased to be United States citizens or to be taxed as resident aliens. In addition, this summary is limited to the initial investors who purchase senior notes for cash at the “issue price,” which is the initial price at which a substantial amount of the notes is sold to the public (excluding bond houses and brokers).

This summary is of a general nature only and is not intended to be, and should not be construed to be, legal, business or tax advice to any particular holder. If a partnership purchases the senior notes, the U.S. federal income tax treatment of a partner will generally depend on the status of the partner and the activities of the partnership. **Prospective purchasers, including partnerships and their partners, should consult their own tax advisors with regard to the application of federal income tax laws to their particular situation, as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.**

As used herein, the term “U.S. Holder” means a beneficial owner of senior notes that is a U.S. person for U.S. federal income tax purposes, other than a partnership. “U.S. person” means (i) any individual who is a citizen or resident of the U.S. for U.S. federal income tax purposes, (ii) a corporation

created or organized in or under the laws of the U.S., any State thereof or the District of Columbia, (iii) any estate the income of which is subject to U.S. federal income taxation regardless of its source, or (iv) any trust if a court within the U.S. is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust. Notwithstanding the preceding sentence, certain trusts in existence on August 20, 1996 and treated as U.S. persons prior to such date may elect to continue to be treated as U.S. persons. As used herein, the term “Non-U.S. Holder” means a beneficial owner of a note that is, for U.S. federal income tax purposes, (i) a nonresident alien individual, (ii) a foreign corporation or (iii) a foreign trust or estate.

For U.S. federal income tax purposes, we are treated as a disregarded entity, with the result that the senior notes will be treated as the indebtedness of Southern Union.

Tax Consequences to U.S. Holders

Payments of Interest

Interest payable on the senior notes will generally be taxable to a U.S. Holder as ordinary interest income at the time it accrues or is received in accordance with the U.S. Holder’s method of accounting for federal income tax purposes.

Sale, Exchange or Disposition of the Senior Notes

Upon the sale, exchange, retirement or other taxable disposition of senior notes, a U.S. Holder will recognize gain or loss equal to the difference between the amount realized on the disposition of the senior notes and such holder’s tax basis in the senior notes. The amount realized excludes any amounts attributable to unpaid interest accrued between interest payment dates, which will be taxable as ordinary income to the extent not previously included in income. A U.S. Holder’s tax basis in a senior note generally will equal the cost of the senior note to such holder. Such gain or loss will be capital gain or loss and will be long-term capital gain or loss if at the time of the disposition the senior notes have been held for more than one year. The deductibility of capital losses is subject to limitations under the Code.

S-24

[Table of Contents](#)

Tax Consequences to Non-U.S. Holders

Payments of Interest

Subject to the discussion below concerning backup withholding, payments of interest on the senior notes by us or any paying agent to any Non-U.S. Holder will not be subject to U.S. federal income tax or a 30% withholding tax provided that (i) the interest is not effectively connected with the conduct by the holder of a trade or business in the United States, (ii) the holder does not own, actually or constructively, 10% or more of the combined voting power of all classes of stock of Southern Union entitled to vote, (iii) the holder is not a controlled foreign corporation (within the meaning of the Code) that is related, directly or indirectly, to Southern Union through stock ownership, (iv) the holder is not a bank whose receipt of interest on the senior notes is described in Section 881(c)(3)(A) of the Code, and (v) the certification requirements required to claim the portfolio interest exemption set forth in Section 871(h) or Section 881(c) of the Code have been fulfilled with respect to the beneficial owner. Generally, to satisfy the certification requirements set forth in Section 871(h) or Section 881(c) of the Code, the beneficial owner of a note must certify on IRS Form W-8BEN, under penalties of perjury, that the holder is not a United States person. Even if the above conditions are not met, a Non-U.S. Holder may be entitled to a reduction in or an exemption from withholding tax on interest under a tax treaty between the U.S. and the Non-U.S. Holder’s country of residence. To claim such a reduction or exemption, a Non-U.S. Holder must generally complete IRS Form W-8BEN and claim this exemption on the form.

Sale, Exchange or Disposition of the Senior Notes

Subject to the discussion below concerning backup withholding, a Non-U.S. Holder of a senior note will not be subject to U.S. federal income tax on any gain realized on the sale, exchange or other disposition of a senior note unless (i) the holder is an individual who is present in the United States for 183 days or more during the taxable year of disposition and certain other conditions are met or (ii) the gain is effectively connected with the conduct by the holder of a trade or business in the United States.

Backup Withholding and Information Reporting

Information returns will be filed with the IRS in connection with payments on the senior notes and the proceeds from a sale, exchange or other disposition of the senior notes. In addition, a backup withholding tax will apply if a noncorporate U.S. Holder (i) fails to furnish its Taxpayer Identification Number (*TIN*) which, for an individual, is his social security number, (ii) furnishes an incorrect TIN, (iii) is notified by the IRS that it is subject to backup withholding for failure to report interest and dividend payments, or (iv) under certain circumstances fails to certify, under penalties of perjury, that it has furnished a correct TIN and has not been notified by the IRS that it is subject to backup withholding for failure to report interest and dividend payments. Backup withholding may apply to certain payments of principal and interest on the senior notes to Non-U.S. Holders, as well as the proceeds of certain sales of senior notes made through brokers, unless the holder has made appropriate certification as to its foreign status, or has otherwise established an exemption. The certification procedures required to claim the exemption from withholding tax on interest income described above under “Tax Consequences to Non-U.S. Holders—Payments of Interest” is generally effective to establish an exemption from backup withholding.

Holders should consult their tax advisers regarding their qualification for exemption from backup withholding and the procedure for obtaining such an exemption if applicable. The rate for backup withholding is currently 28%. After December 31, 2010, the backup withholding rate is scheduled to increase to 31%. The amount of any backup withholding tax withheld from a payment to a holder will be allowed as a credit against the holder’s United States federal income tax liability provided the holder furnishes the required information to the IRS on a timely basis.

UNDERWRITING

Under the terms and subject to the conditions contained in an underwriting agreement to be dated May 1, 2009, we have agreed to sell to the underwriters named below, for whom Wachovia Capital Markets, LLC and RBC Capital Markets Corporation are acting as representatives, the following respective principal amounts of senior notes:

Underwriters	Principal Amount of Senior Notes
Wachovia Capital Markets, LLC	\$
RBC Capital Markets Corporation	\$
Total	\$

The underwriters have agreed to purchase all of the senior notes being sold pursuant to the underwriting agreement if any of these senior notes are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the senior notes, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the senior notes, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to investors and to reject orders in whole or in part.

Discount

The underwriters have advised us that they propose initially to offer the senior notes to investors at the price listed on the cover page of this prospectus supplement and to dealers at such prices less a concession not in excess of 3% of the principal amount of the senior notes. The underwriters may allow and the dealers may reallocate a discount not in excess of 3% of the principal amount of the senior notes to other dealers. After the initial offering, the underwriters may from time to time vary the offering price and other selling terms without notice.

The following table shows the underwriting discount (expressed as a percentage of the principal amount of the senior notes) to be paid by us to the underwriters in connection with this offering.

Per Senior Note	Paid by us	%
-----------------	------------	---

The expenses of this offering payable by us, not including the underwriters' discount, are estimated to be approximately \$ 1,000,000. The underwriters have agreed to reimburse us for certain of the expenses incurred by us in connection with this offering.

Settlement

We expect that delivery of the senior notes will be made against payment on or about the closing date specified on the cover page of this prospectus supplement, which will be the seventh business day following the date of this prospectus supplement (this settlement cycle being referred to as "T+7"). Pursuant to Rule 15c6-1 under the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers of senior notes who wish to trade senior notes more than four business days prior to the closing date will be required to specify an alternate settlement cycle at the time of such trade to prevent a failed settlement.

New Issue of Notes

The senior notes are a new issue of securities with no established trading market. We do not intend to apply for listing of the senior notes on any national securities exchange or for quotation of the senior notes on any automated dealer quotation system. The underwriters have advised us that they presently intend to make a market in the senior notes after completion of this offering. However, the underwriters are under no obligation to do so and may discontinue any market-making activities at any time without any notice. A liquid or active public trading market for the senior notes may not develop. If an active trading market for the senior notes does not develop, the market price and liquidity of the senior notes may be adversely affected. If the

[Table of Contents](#)

senior notes are traded, they may trade at a discount from their initial offering price, depending on prevailing interest rates, the market for similar securities, our performance and other factors.

Price Stabilization and Short Positions

In connection with this offering, the underwriters may engage in transactions that stabilize the market price of the senior notes. Such transactions consist of bids or purchases to peg, fix or maintain the price of the senior notes. If the underwriters create a short position in the senior notes in connection with this offering (i.e., if they sell more senior notes than are listed on the cover page of this prospectus supplement), the underwriters may reduce that short position by purchasing senior notes in the open market. Purchases of a security to stabilize the price or to reduce a short position may cause the price of the security to be higher than it might be in the absence of these purchases.

Neither we nor the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the senior notes. In addition, neither we nor the underwriters make any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Other Relationships

The underwriters and their affiliates have engaged in, and may in the future engage in, investment banking, commercial banking, advisory, general financing and other commercial dealings in the ordinary course of business with us and our affiliates. The underwriters or their affiliates have received, and expect in the future to receive, customary fees and commissions for these transactions. We intend to use more than 10% of the net proceeds from the sale of the senior notes to repay indebtedness owed by our parent company to affiliates of the underwriters. See "Use of Proceeds." As a result, one or more of such banks may receive more than 10% of the net proceeds from the offering of the senior notes in the form of the repayment of such indebtedness. Accordingly, the offering of the senior notes is being made pursuant to NASD Conduct Rule 2710(h).

Legal matters with respect to the validity of the senior notes will be passed upon for us by Locke Lord Bissell & Liddell LLP, Washington, D.C. Certain legal matters will be passed upon for the underwriters by Davis Polk & Wardwell.

A WARNING ABOUT FORWARD-LOOKING STATEMENTS

This prospectus contains some forward-looking statements that set forth anticipated results based on our management's plans and assumptions. From time to time, we also provide forward-looking statements in other materials we release to the public as well as oral forward-looking statements. Such statements give our current expectations or forecasts of future events; they do not relate strictly to historical or current facts. We have tried, wherever possible, to identify such statements by using words such as "anticipate," "estimate," "expect," "project," "intend," "plan," "believe," "will" and similar expressions in connection with any discussion of future operating or financial performance. In particular, these include statements relating to future actions, future performance or results of current and anticipated products, expenses, interest rates, the outcome of contingencies, such as legal proceedings, and financial results.

We cannot guarantee that any forward-looking statement will be realized, although our management believes that we have been prudent in our plans and assumptions. Achievement of future results is subject to risks, uncertainties and potentially inaccurate assumptions. If known or unknown risks or uncertainties should materialize, or if underlying assumptions should prove inaccurate, actual results could differ materially from past results and those anticipated, estimated or projected. You should bear this in mind as you consider forward-looking statements.

We undertake no obligation publicly to update forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any further disclosures we make on related subjects in our Form 10-K, 10-Q and 8-K reports to the SEC. Also note that we provide cautionary discussion of risks, uncertainties and possibly inaccurate assumptions relevant to our businesses in our reports to the SEC on Forms 10-K, 10-Q and 8-K incorporated by reference herein and in prospectus supplements and other offering materials. These are factors that, individually or in the aggregate, management believes could cause our actual results to differ materially from expected and historical results. We note these factors for investors as permitted by the Private Securities Litigation Reform Act of 1995. You should understand that it is not possible to predict or identify all such factors. Consequently, you should not consider such disclosures to be a complete discussion of all potential risks or uncertainties.
