FORWARD-LOOKING STATEMENTS / LEGAL DISCLAIMER

Management of Energy Transfer LP (ET) will provide this presentation to analysts and/or investors at meetings to be held throughout January 2020. At the meetings, members of management may make statements about future events, outlook and expectations related to Panhandle Eastern Pipe Line Company, LP (PEPL), Sunoco LP (SUN), USA Compression Partners, LP (USAC), Energy Transfer Operating, L.P. (ETO) and ET (collectively, the Partnerships), and their subsidiaries and this presentation may contain statements about future events, outlook and expectations related to the Partnerships and their subsidiaries all of which statements are forward-looking statements. Any statement made by a member of management of the Partnerships at these meetings and any statement in this presentation that is not a historical fact will be deemed to be a forward-looking statement. These forward-looking statements rely on a number of assumptions concerning future events that members of management of the Partnerships believe to be reasonable, but these statements are subject to a number of risks, uncertainties and other factors, many of which are outside the control of the Partnerships. While the Partnerships believe that the assumptions concerning these future events are reasonable, we caution that there are inherent risks and uncertainties in predicting these future events that could cause the actual results, performance or achievements of the Partnerships and their subsidiaries to be materially different. These risks and uncertainties are discussed in more detail in the filings made by the Partnerships with the Securities and Exchange Commission, copies of which are available to the public. The Partnerships expressly disclaim any intention or obligation to revise or publicly update any forward-looking statements, whether as a result of new information, future events, or otherwise.

This presentation includes certain forward looking non-GAAP financial measures as defined under SEC Regulation G, including estimated adjusted EBITDA. Due to the forward-looking nature of the aforementioned non-GAAP financial measures, management cannot reliably or reasonably predict certain of the necessary components of the most directly comparable forward-looking GAAP measures without unreasonable effort. Accordingly, we are unable to present a quantitative reconciliation of such forward-looking non-GAAP financial measures to their most directly comparable forward-looking GAAP financial measures.

All references in this presentation to capacity of a pipeline, processing plant or storage facility relate to maximum capacity under normal operating conditions and with respect to pipeline transportation capacity, is subject to multiple factors (including natural gas injections and withdrawals at various delivery points along the pipeline and the utilization of compression) which may reduce the throughput capacity from specified capacity levels.
ET KEY INVESTMENT HIGHLIGHTS

**Well Positioned Assets**
- Fully integrated platform spanning entire midstream value chain
- Assets well positioned in most active basins
- Integrated assets allow solid commercial synergies including gas, crude and NGLs

**Growth From Organic Investments**
- Completing multi-year capex program
- Seeing strong EBITDA growth from recently completed major growth projects
- Expect additional EBITDA growth from remainder of projects coming online through 2020

**Solid Financials**
- Stable cash flow profile with minimal contract roll-offs
- Healthy and improving balance sheet
- Increased retained cash flow with ~$2.5 – $3.0 billion per year of distribution coverage expected

Well positioned for sustainable organic growth and improved financial strength
Recent Developments

- Increased ESG-related content on corporate website
- Successful Sr. Notes and Preferred Units offering in Jan. 2020
- Commissioned Panther II processing plant in Dec. ‘19
- Reduced 2020 growth capital outlook
- Closed SEMG acquisition in Dec. ’19
- PE4 placed in full service in Oct. ’19
- Executed SEMG finance synergies by calling/redeeming high yield notes and HFOTCO Term Loan (over $50mm in annual interest savings)

Improved Financial Position

- Transforming key financial metrics
- Moody's revised Energy Transfer Operating, L.P. ("ETO") credit rating to stable
  - Baa3 (investment grade)
- ~$2.5 – $3.0 billion per year distribution coverage expected
  - As of Sept. 30, 2019, YTD ’19 excess distributable cash flow after distributions of $2.4 billion
- ~1.7x – 1.9x expected long-term coverage ratio
  - As of Sept. 30, 2019, YTD ’19 coverage was 1.98x

Consistent Growth With Strong Financial/Operational Performance

- Moody’s revised Energy Transfer Operating, L.P. (“ETO”) credit rating to stable
  - Baa3 (investment grade)
- ~$2.5 – $3.0 billion per year distribution coverage expected
  - As of Sept. 30, 2019, YTD ’19 excess distributable cash flow after distributions of $2.4 billion
- ~1.7x – 1.9x expected long-term coverage ratio
  - As of Sept. 30, 2019, YTD ’19 coverage was 1.98x

1. See Appendix for Reconciliation of Non-GAAP financial measures
2. Distribution coverage ratio for a period is calculated as Distributable Cash Flow attributable to partners, as adjusted, divided by net distributions expected to be paid to the partners of ET in respect of such period
DELIVERING ON ALL FRONTS

Operational
- All segments delivered strong results
- Reported record NGL transportation throughput, NGL fractionation volumes, midstream gathered volumes, crude volumes
- Red Bluff Express Phase II completed in August 2019
- J.C. Nolan Pipeline went into service in August 2019
- Permian Express 4 went into full service October 1, 2019
- Commissioned Panther II Processing Plant in December 2019

Q3 2019 Financials
- Adjusted EBITDA - $2.8 billion
  - Up 8% from Q3’18
- DCF - $1.5 billion
  - Up 10% from Q3’18
- Distribution coverage ratio – 1.9x
- YTD Growth Capital - $3.1 billion, with incremental value from organic growth projects

Strategic
- Successfully completed acquisition of SEMG
- SEMG transaction adds strategic growth platform in deep-water port on the Houston Ship Channel
- Transaction immediately accretive and balance sheet friendly
- Expands connectivity and increases reach into currently underserved regions

Integrated franchise provides advantages through energy market cycles
UPDATED CAPEX OUTLOOK – A DISCIPLINED, QUICKER CASH GENERATION CYCLE

2019E Growth Capital: ~$4 billion

- Reduced CAPEX guidance from previous estimate by $600-800 million
- 2019E Adjusted EBITDA now $11.0 billion to $11.1 billion (increased from $10.8-$11.0 billion in Nov. 2019)
- Excess cash flow, as well as the Series E preferred units issued in April 2019, allowed year-to-date growth capital to be funded without issuance of common equity or debt

2020E Growth Capital: ~$3.6-$3.8 billion

- Retained cash flow and proceeds from the Series F and G Preferreds are expected to cover all 2020 CAPEX spending

| NGL & Refined Products | • Lone Star Express Expansion  
| | • Mariner East system completion (ME2, ME2X)  
| | • Nederland LPG facilities  
| | • Fractionation plants (VII, VIII)  
| | • Orbit export facilities (Nederland and Mt. Belvieu)  
| | • Multiple projects < $50mm  

| Midstream | • Gathering and processing projects (primarily in West Texas) that deliver volumes to ET’s downstream systems, the majority of which are with integrated, investment grade counterparties  

| Crude Oil | • Bakken pipeline optimization  
| | • Ted Collins Pipeline  
| | • Multiple projects < $50mm  

2021E+ Backlog of Approved Growth Capital Projects: ~$1.5 billion

1. Capital expenditures exclude expenditures related to recently completed SEMG acquisition
SEMG ACQUISITION HIGHLIGHTS

Immediately Accretive Transaction With No Material Credit Impact
Generates an Aggregate $500MM of DCF Coverage 2020-2022

Premier U.S. Gulf Coast Terminal With Stable, Take-or-Pay Cash Flows
18.2 MMBbl Crude Storage Capacity & Export Capabilities

Complementary Assets That Drive Commercial, Operational, Financial and Cost Synergies
$170MM+ Annual Run-rate

Liquids-Focused Infrastructure With No Direct Commodity Price Exposure
Primary Assets are Terminals & Long-Haul Pipelines

Acquisition is consistent with plans to improve financial position
SEMГ ASSET OVERVIEW

**U.S. Liquids: Rockies/MidCon**
- DJ Basin and Cushing
  - 1,700 miles crude pipelines
  - 8.8 million barrels crude oil storage capacity
  - 99 crude oil trucks

**U.S. Gas: MidCon**
- STACK and Mississippi Lime
  - 1,100 miles gas gathering pipelines
  - 3 gas processing plants (565 mmcf/d total)
  - 680,000 dedicated gas gathering acres from key producers

**Canada: SemCAMS Midstream**
- Unique platform in liquids-rich Montney and Duvernay
  - 6 natural gas processing plants
  - ~700 miles natural gas gathering pipelines
  - ~60 miles of liquids pipelines
  - 60 mmcf/d Smoke Lake plant under construction
  - 200 mmcf/d Patterson Creek plant phase III under construction
  - 1.3 bcf/d total operating capacity(1) with significant sulphur recovery

**U.S. Liquids: Gulf Coast**
- Strategic position in North America's largest energy complex
  - 330 acres on Houston Ship Channel
  - 18.2 million barrels of storage
  - Connectivity to Gulf Coast refining complex
  - Pipeline connectivity to all major basins
  - Deepwater marine access
  - Rail and truck loading and unloading
  - Maurepas Pipeline serving refineries

*Long-term contract on 3rd-party pipeline transfers NGLs from DJ Basin to Mont Belvieu*
Expands Crude Oil Asset Footprint

- Strategic franchise-quality position on the Houston Ship Channel
- Will provide connectivity along the U.S. Gulf Coast and throughout ET’s system
- Increases reach into the DJ basin where ET does not have a presence

Expands Logistical Optionality

- Provides additional outlets for Permian, Rockies and Mid-Continent producers
- Offers deep-water marine access
- DJ Basin infrastructure optionality

Expected Synergies

- Utilization rates on existing assets (i.e. Houston Fuel Oil Terminal (“HFOTCO”) docks closer to full capacity)
- Presence in new markets generating opportunities for other aspects of portfolio (i.e. Houston Ship Channel, DJ Basin)
- Integrates assets with ET’s Nederland terminal and U.S. Gulf Coast assets
- Cost efficiencies with combined operations
- $170MM+ annual run-rate synergies including commercial, operational, financial and cost synergies

ET & SEMG COMPLEMENTARY ASSETS

Fully-integrated midstream platform enhances ability to offer wide range of services to both domestic and international markets
TRANSFORMING UNDERUTILIZED ASSETS

Mont Belvieu – 2011¹

- Fractionators: 0
- Fractionation capacity: 0 bbls/d
- Proposed 100,000 bbls/d Frac 1; in-service 2013
- Potential for incremental 100,000 bbls/d Frac 2

Mont Belvieu – 2019

- Fractionators: 6
- Fractionation capacity: Up to 790,000 bbls/d
- Frac VII under construction; expected in-service Q1 2020
- Frac VIII under construction; expected in-service Q2 2021

Upon completion of Frac VIII in Q2 2021, ET will be capable of fractionating over 1 million barrels per day at Mont Belvieu

¹. Source: Management Presentation 2011
². Under construction
TED COLLINS PIPELINE - A STRATEGIC CONNECTION ON THE U.S. GULF COAST

- ~75-mile pipeline to connect the Houston Ship Channel and ET's Nederland Terminal
- Will provide best-in-class access to multiple markets
  - Houston
  - Beaumont/Port Arthur
  - St. James
- Initial capacity of 500 MBbl/d+
- Will provide immediate access to 1,000 MBbl/d+ of export capacity with plans to double
- Expected to be in service in 2021

Strategic new pipeline provides increased optionality and enhances value of the Nederland Terminal and Houston Ship Channel assets

Note: Pipeline route shown is for illustrative purposes.
SUCCESSFUL ACQUISITION TRACK RECORD

- ET Management has a proven track record of successfully integrating acquisitions
- Knowledge of respective assets and businesses facilitates integrations of:
  - Operations
  - Commercial
  - Risk Management
  - Finance / Accounting
  - Information Technology
- Successfully completed acquisition of SEMG on December 5, 2019
CAPITAL ALLOCATION – INCREASED FOCUS ON RETURNS

• **Maintain strong investment grade balance sheet**
  – Continued improvement in debt metrics

• **Efficiently fund organic growth capital projects**
  – High-grade investment options with higher return thresholds
  – Majority funded with retained cash flow

• **Multiple options available after achieving debt targets**
  – Options not mutually exclusive
  – Unit buy-backs > favorable return at current ET trading price
  – Distribution increases > goal to have sustainable long-term growth

Leverage target: 4.0 – 4.5x debt/EBITDA
Diversified earnings mix with primarily fee-based business

(1) Joint Venture
CRUDE OIL SEGMENT – BAKKEN PIPELINE PROJECT

Delivery Points
Origin Sites
Bakken Pipeline
Nederland Terminal

Bakken Pipeline System

- 1,915 mile system connecting Bakken production to ET’s Nederland terminal on the Gulf Coast
- Placed into service June, 2017
- Recently completed successful open season to bring current system capacity to 570,000 barrels per day
- Currently conducting an open season to further optimize system capacity to serve growing demand for additional takeaway
- Upon completion of the permitting phase, expect to provide up to ~30,000 barrels per day of early service capacity by mid-2020, utilizing current system configuration

(1) Ownership is ET: 36.37%, MarEn: 36.75%, PSXP: 25%, XOM: ~2%
CRUDE OIL SEGMENT – PERMIAN EXPRESS PIPELINES

Permian Express 1
- 16-inch, ~380-mile pipeline
- 150,000 barrels per day of capacity
- Provides transportation from Wichita Falls, TX to Nederland, TX
- Contracted under long-term agreements

Permian Express 2
- 20- & 24-inch, ~400-mile pipeline
- 230,000 barrels per day of capacity
- Provides transportation from Midland, TX to Nederland, TX
- Contracted under long-term agreements

Permian Express 3
- 20- & 24-inch, ~400-mile pipeline
- 140,000 barrels a day of capacity
- Provides transportation from Midland, TX to Nederland, TX
- Contracted under long-term agreements

Permian Express 4
- 24-inch, ~400-mile pipeline
- 120,000 barrels per day of capacity
- Provides transportation from Colorado City, TX to Nederland, TX
- Contracted under long-term agreements
- Fully in service October 1, 2019

1 million+ barrels per day of Permian crude take-away capacity with the addition of Permian Express 4¹

---

1 Includes West Texas Gulf and Amdel pipelines
### NGL & Refined Products Segment – Mariner East System

**Comprehensive Marcellus/Utica Shale solution reaching local, regional and international markets**

- Provides NGL transportation from OH / Western PA to the Marcus Hook Industrial Complex on the East Coast
- Supported by long-term, fee-based contracts
- Diversified customer base includes producers, midstream providers and major integrated energy companies
- System easily expandable to meet future demand

<table>

</tbody>
</table>
Orbit Joint Venture with Satellite Petrochemical USA Corp includes construction of a new ethane export terminal on the U.S. Gulf Coast to provide ethane to Satellite.

At the terminal, Orbit is constructing:
- 800,000 barrel refrigerated ethane storage tank
- 175,000 barrel per day ethane refrigeration facility
- 20-inch ethane pipeline originating at our Mont Belvieu facilities, that will make deliveries to the export terminal, as well as domestic markets in the region.

ET will be the operator of the Orbit assets, provide storage and marketing services for Satellite, and provide Satellite with approximately 150,000 barrels per day of ethane under a long-term, demand-based agreement.

In addition, ET is constructing and will wholly-own the infrastructure required to supply ethane to the pipeline and to load ethane onto carriers destined for Satellite’s newly-constructed ethane crackers in China.

Subject to Chinese Government approval, expect all facilities in the U.S. and China to be ready for commercial service in the 4th quarter of 2020.
NGL & REFINED PRODUCTS SEGMENT – PIPELINE AND FRACTIONATION EXPANSION

**Lone Star Express Expansion**
- 24-inch, 352-mile expansion
- Will add 400 thousand bbls/d of NGL pipeline capacity from Lone Star’s pipeline system near Wink, Texas to the Lone Star Express 30-inch pipeline south of Fort Worth, Texas
- Expected in-service in Q4 2020

**Mont Belvieu Fractionation Expansions**
- Total of 6 fractionators at Mont Belvieu
- 150,000 bbls/d Frac VI went into service in February 2019
- Frac VII will have a capacity of 150 thousand bbls/d and is expected in-service in Q1 2020
- Announced plans to construct 8th fractionator at Mont Belvieu in August 2019
- Upon completion of Frac VIII in Q2 2021, ET will be capable of fractionating over 1 million barrels per day at Mont Belvieu
GROWING UNIQUE EXPORT CAPABILITIES

**Nederland Terminal**
- ~1,200 acre site on USGC
- ~28 million bbls crude storage capacity; 1.2 million bbls refrigerated propane/butane storage capacity
- 5 ship docks and 4 barge docks accommodate Suez Max sized ships
- Rail and truck unloading capabilities
- 800 thousand bbls refrigerated ethane storage under construction as part of Orbit export project
- Permian and Mont Belvieu expansions provide future growth opportunities
- Started loading first barge with natural gasoline in July 2019
- Moving forward with 200,000 bbls/d LPG expansion
- Space available for further dock and tank expansion

**HFOTCO Terminal**
- ~1,200 acre site on USGC
- 330 acres on Houston Ship Channel
- 18.2 million barrels of storage
- 5 ship docks, 7 barge docks
- Connectivity to Gulf Coast refining complex
- Pipeline connectivity to all major basins
- Deepwater marine access
- Rail and truck loading and unloading

**Marcus Hook Industrial Complex**
- ~800 acre site: inbound and outbound pipeline along with truck, rail and marine capabilities
- >325 thousand bbls/d of combined NGL and ethane export capacity, approaching 400 thousand bbls/d in 2020
- ~2 million bbls underground NGL storage; 3 million bbls above-ground NGL storage; ~1 million bbls crude storage capacity
- 4 export docks accommodate VLGC sized vessels
- Rover, Revolution and Mariner East systems provide long-term growth potential
- Positioned for further expansion and development of exports, processing, storage and manufacturing
ET is nearing capacity in both the Delaware and Midland Basins due to continued producer demand and strong growth outlook in the Permian. As a result of this demand, ET has continued to build out its Permian infrastructure, and recently completed another processing plant.

**Processing Expansions**
- 600 MMcf/d of processing capacity online in 2016 and 2017.
- 200 MMcf/d Arrowhead II processing plant went into service at end of October 2018.
- 200 MMcf/d Arrowhead III in the Delaware Basin went into service July 2019 and is expected to be full by year-end 2020.
- 200 MMcf/d Panther II processing plant commissioned December 2019.

**Red Bluff Express Pipeline**
- 1.4 Bcf/d natural gas pipeline through heart of the Delaware Basin.
- Connects Orla plant, as well as 3rd party plants, to Waha/Oasis header.
- Went into service May 2018.
- 25-mile expansion completed early August 2019.

With completion of recent processing expansion, now have ~2.7 Bcf/d of processing capacity in the Permian Basin.
RENEWED COMMITMENT TO DEVELOP LAKE CHARLES LNG EXPORT TERMINAL

Export Project

- Executed Project Framework Agreement in March 2019
- Issued comprehensive commercial tender package to U.S. and international consortia to bid for Engineering, Procurement and Construction contract in December 2019
  - Expect to receive commercial bids in Q2 2020
- Final investment decision (FID) to be mutually determined
- 50/50 partnership
  - Energy Transfer
  - Shell US LNG, LLC
- Convert existing LNG import facility to export terminal
- Fully permitted
  - Utilizes existing infrastructure
- Strategically located
  - Abundant natural gas supply
  - Proximity to major pipelines
- Estimated export capacity of ~16.5 million tonnes per year

Current Terminal Assets

- 152-acre site
- Two existing deep-water docks to accommodate ships up to 215,000 m³ capacity
- Four LNG storage tanks with capacity of 425,000 m³
Energy Transfer is dedicated to responsibly and safely delivering America’s energy.

Program Highlights

Environmental, Health, and Safety

- Committed to pursuing a zero incident culture
- Overall year-to-year incident rate improvements
- Significant use of renewable energy in operations
- Comprehensive investigation and risk reduction for reported EHS incidents
- Compliance tracking and trending through a comprehensive Environmental Management System
- Methane reduction program
- Support pipeline safety and environmental research through membership in the Pipeline Research Council International (PRCI) and the Intelligent Pipeline Integrity Program (iPIPE)

Social Responsibility

- $39 MM donated to charitable organizations between 2017 and 2018
- 4,000+ volunteer hours by ET employees
- Comprehensive Stakeholder Engagement Program that promotes proactive outreach and respect for all people
- Committed to an inclusive and diverse workforce
- Adopted America’s Natural Gas Transporters’ Commitment to Landowners
- On-going emergency response and public awareness outreach programs

Corporate Governance

- EHS Compliance and ESG issues oversight by Independent BOD Audit Committee
- Compensation aligned with business strategies – performance based with retention focus
- Strong enforcement of integrity and compliance standards
- ET General Council serves as Chief Compliance Officer
- Quarterly compliance certifications from senior management
- Alignment of management/unitholders

Program Accomplishments

- 2018 EHSQ Alliance Award for Environmental Stewardship for outstanding leadership in environmental management and performance
- Achieved TRIR safety incidents and PHMSA incident rate better than industry benchmark
- 20% of electrical energy purchased by ET originates from solar or wind sources
- Ducks Unlimited partnership provided $5 MM donation for wetlands restoration in Louisiana and Ohio
- Reduced emissions with ET patented Dual-drive compressors used in ozone non-attainment areas
- Landfill gas renewable electric power generation via Energy Transfer-owned PEI Power

Annual Engagement Report now available at www.energytransfer.com
APPENDIX
CRUDE OIL SEGMENT

Crude Oil Pipelines

- ~9,524 miles of crude oil trunk and gathering lines located in the Southwest and Midwest United States
- Controlling interest in 3 crude oil pipeline systems
  - Bakken Pipeline (36.4%)
  - Bayou Bridge Pipeline (60%)
  - Permian Express Partners (87.7%)

Crude Oil Acquisition & Marketing

- Crude truck fleet of approximately 370 trucks
- Purchase crude at the wellhead from ~3,000 producers in bulk from aggregators at major pipeline interconnections and trading locations
- Marketing crude oil to major pipeline interconnections and trading locations
- Marketing crude oil to major, integrated oil companies, independent refiners and resellers through various types of sale and exchange transactions
- Storing inventory during contango market conditions

Crude Oil Terminals

- Nederland, TX Crude Terminal - ~28 million barrel capacity
- Northeast Crude Terminals - ~3 million barrel capacity
- Midland, TX Crude Terminal - ~2 million barrel capacity

ET Opportunities

- Delaware Basin Pipeline has ability to expand by 100 mbpd
  - Permian Express 4 went into full service October 1, 2019
NGL & Refined Products Segment

- Mont Belvieu fractionators (up to 790 Mbpd)
- 40 Mbpd King Ranch, 25 Mbpd Geismar
- 50 Mbpd Houston DeEthanizer and 30 to 50 Mbpd Marcus Hook C3+ Frac in service Q4 2017
- 150 Mbpd Frac VI placed in-service Q1 2019
- 150 Mbpd Frac VII in-service Q1 2020
- 150 Mbpd Frac VIII in-service Q2 2021

NGL Storage
- TET Mont Belvieu Storage Hub ~50 million barrels NGL storage
- ~7 million barrels of NGL storage at Marcus Hook, Nederland and Inkster
- Hattiesburg Butane Storage ~3 million barrels

NGL Pipeline Transportation
- ~4,750 miles of NGL Pipelines throughout Texas and Northeast
- Announced Lone Star Express expansion
  - 352 mile, 24-inch NGL pipeline
  - In-service Q4 2020
- ~2,200 miles of refined products pipelines in the northeast, Midwest and southwest US markets
- 35 refined products marketing terminals with 8 million barrels storage capacity

Fractionation
- 6 Mont Belvieu fractionators (up to 790 Mbpd)
- 40 Mbpd King Ranch, 25 Mbpd Geismar
- 50 Mbpd Houston DeEthanizer and 30 to 50 Mbpd Marcus Hook C3+ Frac in service Q4 2017
- 150 Mbpd Frac VI placed in-service Q1 2019
- 150 Mbpd Frac VII in-service Q1 2020
- 150 Mbpd Frac VIII in-service Q2 2021

Mariner Franchise
- ~200 Mbpd Mariner South LPG from Mont Belvieu to Nederland
- 50 Mbpd Mariner West ethane to Canada
- 70 Mbpd ME1 ethane and propane to Marcus Hook
- 275 Mbpd(1) ME2 NGLs to Marcus Hook (Placed into initial service Q4 2018)
- Total NGL volumes moved through Marcus Hook reached as much as ~300 Mbpd for during Q3 2019
- ME2X expected in-service mid-2020

Refined Products
- ~2,200 miles of refined products pipelines in the northeast, Midwest and southwest US markets
- 35 refined products marketing terminals with 8 million barrels storage capacity

(1) Upon full completion
More than 40,000 miles of gathering pipelines with more than 8.2 Bcf/d of processing capacity

Midstream Asset Map

Midstream Highlights

- Volume growth in key regions:
  - Q3 2019 gathered volumes reach a record 14 million mmbtu/d, and NGLs produced were ~574,000 bbls/d
- Permian Capacity Additions:
  - 200 MMcf/d Rebel II processing plant came online in April 2018
  - 200 MMcf/d Arrowhead II processing plant came online in October 2018
  - 200 MMcf/d Arrowhead III processing plant came online in July 2019
  - 200 MMcf/d Panther II processing plant in the Midland Basin commissioned December 2019

Our interstate pipelines provide:

- **Stability**
  - Approximately 95% of revenue is derived from fixed reservation fees

- **Diversity**
  - Access to multiple shale plays, storage facilities and markets

- **Growth Opportunities**
  - Well positioned to capitalize on changing supply and demand dynamics
  - Expect earnings to benefit from placing Rover in full service
  - In addition, expect to receive significant revenues from backhaul capabilities on Panhandle and Trunkline

~18,990 miles of interstate pipelines with ~21Bcf/d of throughput capacity
### Intrastate Pipeline Segment

**Intrastate Asset Map**

- ~9,400 miles of intrastate pipelines
- ~21 Bcf/d of throughput capacity

**Intrastate Highlights**

- Continue to expect volumes to Mexico to grow, particularly on Trans-Pecos and Comanche Trail pipelines
  - Have seen an increase in 3rd party activity on both of these pipes, mostly via backhaul services being provided to the Trans-Pecos header
- Well-positioned to capture additional revenues from anticipated changes in natural gas supply and demand in the next five years
- Red Bluff Express Pipeline connects the Orla Plant, as well as 3rd party plants, to the Waha Oasis Header
  - Phase I went into service in Q2 2018 and Phase II went into service in August 2019

### NON-GAAP RECONCILIATION

#### Definitions
- **Adjusted Distributable Cash Flow (consolidated)**: is calculated by the Partnership and reflects the calculation of Distributable Cash Flow (consolidated) by subtracting the amount of distributions to ETO's unitholders and the noncontrolling interest for interests in other non-wholly-owned subsidiaries. Adjusted Distributable Cash Flow reflects the amount of cash available to the unitholders of ET and its noncontrolling interests for distribution to such unitholders and noncontrolling interests. The calculation of Adjusted Distributable Cash Flow is based on the definition of Distributable Cash Flow, as adjusted. For the purposes of this calculation, we use a different calculation of Distributable Cash Flow attributable to noncontrolling interests in other non-wholly-owned subsidiaries. For unconsolidated affiliates, Distributable Cash Flow reflects the Partnership's proportionate share of the investee's distributable cash flow.

#### Notes
- The tables in this document reflect the calculation of Adjusted Distributable Cash Flow attributable to partners, as adjusted, divided by distributions expected to be paid to the partners of ET in respect of the third quarter of 2019, which expected distributions total $891 million.

**Adjusted Distributable Cash Flow** is used by management to evaluate our overall performance. Our partnership agreement requires us to distribute all available cash, and Distributable Cash Flow, to our unitholders and noncontrolling interests. Changes in our Distributable Cash Flow are primarily due to changes in our operating results, changes in working capital requirements, and changes in our capital expenditures. Distributable Cash Flow is not intended to be used as a substitute for cash flow or net income, and is not necessarily indicative of our ability to make cash distributions. We are not required to distribute all available cash. We may retain some cash, as determined by our Board of Directors, for such uses as we determine to be appropriate, including to meet our capital needs, or to provide cash reserves.
